

**INFIBEAM AVENUES LIMITED**  
*(Formerly known as Infibeam Incorporation Limited)*

**[CIN: L64203G]2010PLC061366]**

**Environment, Health and Safety Policy**

### **1. PREAMBLE:**

In terms of environmental performance, the aim is to minimize impact and create a positive footprint wherever possible. Infibeam Avenues Limited (“Infibeam”) is committed to manage its operations using principles of Sustainable development to minimize impact on environment and protect health & safety of our employees, service providers, neighbouring communities and customers.

### **2. POLICY:**

The Company as a responsible corporate citizen shall consider its obligation to maintain highest standards of the environmental management and ensure for all its members, consultants, contractors and customers a safe and healthy environment free from occupational injury & diseases. It shall ensure:

- To contribute to sustainable development through the establishment and implementation of environment, health and safety standards that meet the requirement of relevant laws, regulations and codes of practice;
- To take into account environment, occupational health and safety aspects in planning and decision-making;
- To provide appropriate training to employees as well as service providers' employees on EHS and implement best practices;
- To instil a sense of duty in every employee including those of service providers at the Company's premises, towards their personal safety, as well as that of their co-workers
- To ensure adoption of resource efficient and cleaner production methods;
- To continue to increase the contribution from renewable energy sources towards meeting overall energy demand.

### **3. IMPLEMENTATION:**

This policy is communicated to all employees in an appropriate and meaningful manner. The Compliance Officer shall have overall responsibility for implementing this policy and shall take internal/external approvals wherever necessary. This shall be accomplished by making continuous improvement in our operations and management systems. The Company will continue to strive for excellence in environmental, health & safety performance

Compliance with the Policy will be regularly monitored and evaluated by the Board of Directors.
