Segment assets include all operating assets used by a segment and principally consists of operating cash, trade receivables, inventories and fixed assets, net of allowances and provisions which are reported as direct offsets in the balance sheet. While most such assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two segments is allocated to the segments on a reasonable basis. Segment liabilities include all operating liabilities and consist principally of trade payables and accrued liabilities. Segment assets and liabilities do not include those relating to income taxes. There are certain assets which are used interchangeably between the segments by the Group's businesses, the same have not been fully identified to any of the reportable segments, and accordingly such assets are disclosed as 'unallocated'.
