Securing Trust - Ensuring Future

In the ever-evolving realm of digital commerce within India, Infibeam Avenues emerges as a pioneering visionary, transcending conventional gateways to redefine the payments landscape. With an unwavering dedication to innovation, we have meticulously curated a diverse range of cutting-edge payment solutions and platforms that empower businesses and individuals nationwide.

Our transformative journey beyond gateways commenced with a mission to bridge the divide between businesses and customers. Through meticulous craftsmanship, we have curated a comprehensive suite of payment solutions and platforms tailored to the unique needs of our diverse user base. From seamless mobile payments to secure e-commerce gateways, our solutions are intricately designed to simplify transactions, elevate customer experiences, and propel business growth.

Highlights of FY23

Significant Rise in TPV:

Infibeam Avenues witnessed a substantial increase in transaction processing value (TPV) in the digital payments business, and a **doubling of GMV in its largest ecommerce software implementation**, the Government eMarketplace (GeM). TPV grew 52% YoY to ₹ 4.5 trillion (\$54 billion) during FY 2023.

Stellar Growth in Merchants:

The company's merchants grew 61% YoY to 9.2 million by the end of FY 2023. **The average daily merchant addition was approximately 9,500 in FY 2023 vs 8,750 in FY 2022.**

Licensing Achievements:

Infibeam Avenues received two coveted licenses from the Reserve Bank of India (RBI). The company obtained a payment aggregator license (in-principal approval) to operate as the payment aggregator, while it also secured a perpetual license to operate as a Bharat BillPay Operating Unit (BBPOU) for bill payments.

Launch of CCAvenue TapPay:

Infibeam Avenues launched CCAvenue TapPay, an advanced omni-channel payment solution that can replace expensive, bulky and less portable, card-swiping POS machines with a smartphone-based app. The app received over 150,000 downloads within six months of launch. This accelerated to over 300,000 by the end of June 2023. **The company aims to reach one million downloads by the end of FY24.**

Processing Central Bank Digital Currency (CBDC) Transactions:

CCAvenue became India's first payment gateway player to process CBDC transactions for online retail merchants, further cementing its position as an innovative player in the digital payments.

Expansion into Australia:

Infibeam Avenues established its wholly-owned subsidiary, Infibeam Avenues Australia Pty Limited, to tap into Australia's growing digital payment market. The unique CCAvenue TapPay technology, converting smartphones into POS machines, will play a crucial role in the expansion.

Consolidation of International Operations:

Infibeam Avenues consolidated its international business by transferring its subsidiaries in Australia, the USA, and Saudi Arabia to its UAE-based subsidiary, Vavian International Ltd. This move allows the company to have a focused strategy to tap into these regions' growing digital payment markets.

Strategic Investments and Partnerships:

Infibeam Avenues made strategic investment in software startup Vishko22 to develop omnichannel enterprise software products and services and partnered with Riyadh Bank in Saudi Arabia and Oman's Bank Dhofar SAOG to expand its digital payment services in GCC.

Recognition and Awards:

CCAvenue and Infibeam Avenues received several accolades and recognition, including being recognised as a Superbrand, winning awards for best use of technology and innovation, and receiving the Excellence in Technology award.

Dividend Announcement:

Infibeam Avenues announced a dividend of 5% to its shareholders, for the third year in a row, reflecting the company's financial strength and commitment to rewarding its investors.

TECH & INFRASTRUCTURE CAPABILITIES

Data Center Infrastructure segment includes state-of-the-art Tier III data center built in collaboration with Schneider and IBM at GIFT City, Gandhinagar. The centre has received Tier-III design certification from Uptime Institute and is built on resilient and high-speed processors. The Company will run the captive workload through this data centre and will also open additional capacity as public cloud with the following services: Infrastructure-as-a-Service (IaaS), Platform-as-a-Service (PaaS) (blockchain platform, e-commerce platform), Database-as-a-Service (DBaaS). The data centre business will offer storage as well as compute services. It will also provide domain infrastructure services under our '.OOO' generic top-level domain (gTLD) and will also run our advertisement platform frameworks. This centre houses the first IBM LinuxONE in India to run public cloud services and is the first production-ready blockchain platform in India running on HyperLedger.

Seamlessly Integrated Omnichannel Payments

In an era where consumer expectations are evolving at an unprecedented pace, the quest for a seamless integration between physical and digital realms has become paramount. Consumers today seek a harmonious experience that transcends the boundaries of traditional and online transactions. Enter the realm of omnichannel payments, a dynamic solution that bridges this gap by offering a unified, frictionless experience across various touchpoints. Whether it's starting a purchase online and completing it in-store, or vice versa, omnichannel payments enable customers to navigate effortlessly between different platforms while enjoying consistent convenience and security. This convergence caters to modern shopping habits and deepens brand engagement, fostering loyalty through a holistic, user-centric approach that seamlessly melds the tangible and virtual dimensions of commerce.

The Company, for this purpose, launched the world's most advanced omnichannel payment app in July 2022, with multiple ways of accepting payments and featuring India's first pin-on-glass SoftPOS solution – CCAvenue TapPay. The contactless technology, an all-in-one mobile app, can turn smartphones into payment terminals that also give instant audio confirmation of payment receipt without any additional hardware, making it a no-/low-cost payment acceptance mechanism.

RBI data reveals that more than 80 million credit card holders spent more than ₹ 1 trillion in each month of the financial year 2022-23, which has never been experienced before. The contribution of Credit and Debit cards spend between eCommerce (online) and POS (offline) in FY23 has remained almost equal at 50%. And this contribution in first quarter of 2023-24 has remained in the same range, based on the Payment System Indicators data, released by RBI.

The company, in the last 20+ years of operational history, had no presence in offline. After a very successful two-decade journey in online payments and software platforms, the company is now entering offline digital payments for the connected consumers of tomorrow, presenting multiple opportunities for the company through its diverse portfolio of payments, platforms and lending solutions for the business community.

The company has received an overwhelming response for its TapPay since launch. The number of merchants having CCAvenue TapPay on their mobile phones reached 150,000 by the end of March 2023, fifty thousand more than the targeted number. Also, by the end of June 2023, this number double to 300,000.

The company also plans to take this product to international markets, starting with UAE, followed by other GCC markets and then various other international locations where the company will launch payments business.

Key Drivers of The Business

Expanding Digital Payments Landscape in India: Projected Growth in P2M Digital Payments

The digital payments landscape in India is experiencing significant growth, providing immense opportunities for Infibeam Avenues. The country's total addressable market (TAM) for digital payments continues to expand rapidly. As per a report by BCG, India's digital payments landscape has witnessed phenomenal growth over the past five years. As per the report, India's digital payments market is at an inflection point and digital merchant payments is projected to witness 7x growth from US\$ 0.3-0.4 trillion in 2021 to US\$ 2.5-2.7 trillion by 2026. This projection highlights the tremendous potential for Infibeam Avenues to capitalise on this growth and establish a strong presence in the Indian digital payments market. (Make a chart showing values in 2021 and 2026 from the data points mentioned above)

The digital payments landscape in India is experiencing significant growth, providing immense opportunities for Infibeam Avenues.

India's online shopper base is estimated to increase to 400-450 million by 2027, and, India's e-commerce market has the potential to surpass the US to become the second-largest shopper base in the next one to two years.

Accelerating eCommerce Transactions: Catering to the Growing Online Market

The share of spending on eCommerce in India is on a steady rise. This presents significant opportunities for Infibeam Avenues to provide secure and efficient payment solutions for online transactions. By offering seamless integration with eCommerce platforms, Infibeam Avenues can cater to the evolving needs of consumers and merchants, solidifying its position as a trusted payment partner in the rapidly growing Indian eCommerce market. According to a report by Bain & Company, e-retail penetration is expected to grow from ~5% to ~9%-10% in 2027, India's online shopper base is estimated to increase to 400-450 million by 2027, and, India's e-commerce market has the potential to surpass the US to become the second-largest shopper base in the next one to two years.

Embracing Technological Innovations: Enabling Contactless Payments

Technological innovations are reshaping the digital payments landscape in India. Contactless payments is gaining prominence as the new acceptance form factor. Contactless payments in India surged six times in the last three years from 2.5% in December 2018 to 16% in December 2021. As per a report by Juniper Research, the global contactless card transaction values will reach \$2.5 trillion in 2021, from \$1.7 trillion in 2020, registering a growth of 45%. The global contactless payment market size is expected to reach \$6.25 trillion by 2028. Infibeam Avenues is leading from the front with its low cost contactless solution that offers convenience and safety to merchants as well as consumers for making digital payments through its mobile app, CCAvenue TapPay. By staying at the forefront of technological advancements, Infibeam Avenues can cater to the evolving preferences of consumers and merchants.

Modernising B2B Payments: Seizing Opportunities for Growth in Business Transactions

The modernisation of B2B (Business-to-Business) payments presents untapped opportunities for Infibeam Avenues in the Indian market. India's B2B transactions involve mostly cash and cheque, contributing to 55% of domestic B2B payments in Fiscal 2022. As a result, domestic B2B payments in India are expected to increase from US\$7.5-7.8 trillion in Fiscal 2022 to US\$9-10 trillion in Fiscal 2026. Of the 64 million businesses in India, three to four million have made rapid progress in digitalising their business spends, including large corporations, mid-market enterprises, and a rapidly growing ecosystem of start-ups. By streamlining and digitising B2B transactions, Infibeam Avenues can offer secure and efficient payment solutions that cater to the evolving needs of businesses. This enables smoother financial transactions, fosters business growth, and positions Infibeam Avenues as a trusted payment partner for Indian enterprises.

Addressing the Persistence of Cash Payments: Driving Conversion to Digital Transactions

Despite the surge in digital payments, cash transactions still persist in India. According to the RBI, the value of the currency in circulation in India was ₹ 33.78 trillion at the end of FY23, up 7.8% YoY. This indicates the potential for further growth and conversion to digital payment methods. Infibeam Avenues can play a pivotal role in driving this conversion by providing secure, user-friendly, and innovative digital payment solutions that incentivise individuals and businesses to adopt digital transactions over cash payments.

Chairman's Letter to Shareholders

As we move forward, let us remember that our success is not measured merely by financial figures but by the positive impact we create in the lives of our customers and the communities we serve

Dear Shareholders,

I am writing to you with great enthusiasm and excitement to share our vision for the future of digital payments and its profound impact on our company's growth and success, which you have already witnessed over the last few years. As we continue to navigate the ever-evolving landscape of the global economy, we recognise that the digital revolution has become the cornerstone of modern commerce, transforming how we interact, transact, and conduct business.

At Infibeam Avenues, our commitment to innovation and adaptability to the dynamic changes in the sector has

positioned us at the forefront of the digital payments industry. We firmly believe that embracing this transformation will unlock unprecedented opportunities, enhance our competitive edge, and create sustainable long-term value for all our shareholders.

Digital payments have redefined convenience, security, and efficiency in conducting financial transactions. As we embark on this journey, our primary objective is to develop a seamless and user-friendly platform that caters to the diverse needs of consumers and businesses alike. By offering a comprehensive suite of digital payment solutions, we aim to foster financial inclusion,

empowering individuals and enterprises regardless of their geographical location or financial status.

Our vision extends beyond traditional payment methods. We are actively exploring cutting-edge technologies to enhance the security and privacy of transactions. By leveraging these advancements, we aspire to build a payment ecosystem that sets new standards for reliability and trust, bolstering confidence among our users, both the merchants to whom we offer our payment solutions and the consumers who finally transact on our payment page provided to the merchants.

Moreover, we recognise the importance of partnerships and collaborations in accelerating our progress. We actively engage with financial institutions, merchants, and government entities to develop synergistic relationships that pave the way for integrated payment solutions, ultimately benefitting all stakeholders involved.

Furthermore, we are steadfast in our commitment to promoting financial inclusion. By expanding our services to underserved regions and marginalised communities, we aim to bridge the gap between the unbanked and the financial world, empowering millions to participate actively in the global economy through our innovative payment solutions.

Environmental sustainability is another key aspect of our vision. As responsible global citizens, we are committed to minimising the ecological footprint of our operations. We aim to reduce reliance on paper-based transactions through digital payments, contributing to a greener and more sustainable future for generations to come.

As we forge ahead with our vision, we are mindful of potential challenges and risks. However, we firmly believe that with our dedicated team of experts, our resilient corporate culture, and our unyielding commitment to excellence, we can overcome any obstacles that come our way.

Behind every milestone we achieve is a team of remarkable individuals whose relentless

efforts drive our success. To our dedicated employees, I sincerely appreciate your outstanding commitment and hard work. Your passion for excellence and innovative spirit have been instrumental in shaping the company's growth and success.

Our success as a company would not have been possible without the exceptional guidance and strategic understanding of our esteemed Board of Directors. Their visionary leadership and unwavering commitment to corporate governance have steered us through both prosperous and challenging times.

As we move forward, let us remember that our success is not measured merely by financial figures but by the positive impact we create in the lives of our customers and the communities we serve. With unity, determination, and a shared vision, we will pave the way for a future where digital payments revolutionize the world of finance.

In conclusion, I extend my heartfelt gratitude to all our shareholders for their unwavering support. Together, we embark on an exciting journey to shape the future of digital payments and redefine the way the world conducts transactions.

Thank you all for being an integral part of our remarkable journey. Together, we will script a legacy of innovation, inclusivity, and sustainable growth.

Thank you for your trust in us. Together, let us embrace the

limitless possibilities of digital payments and continue to thrive in this ever-changing world.

Sincerely,

Ajit Mehta

Review by the Managing Director

By exploring untapped opportunities and partnering with like-minded organisations, we have broadened our reach and unlocked new revenue streams

Dear Shareholders,

I hope this letter finds you in good health and high spirits. I am delighted to share with you the exceptional financial performance of Infibeam Avenues during the past year, FY 2022-23, as well as our strong and promising future ahead.

Financial Performance Highlights:

I am thrilled to report that Infibeam Avenues has achieved remarkable financial results during the fiscal year. Our total income has grown significantly, reaching record levels, and crossing ₹ 20,000 million, thanks

to our dedicated team and our customers (merchants) ' trust in us. Furthermore, our profitability has surged to the highest ever to ₹ 1,363 million.

One of the key drivers of our success has been our unwavering commitment to innovation and embracing emerging technologies. Through targeted investments in research and development, we have been able to create cutting-edge products and services that cater to the ever-evolving needs of our merchants. These technological advancements have improved our offerings and enabled us to gain a competitive advantage in the market.

Our expansion into new markets and strategic partnerships have also played a pivotal role in our financial success. By exploring untapped opportunities and partnering with like-minded organisations, we have broadened

₹ 20,331 million
Total Income (up 56% YoY)

₹ 1,363 million
Profit After Tax (up 63% YoY)

our reach and unlocked new revenue streams. Moreover, our commitment to providing unparalleled service experience has increased merchant retention and more banks partnering with us.

Our balance sheet remains robust and healthy as a testament to our financial strength. We have maintained a conservative approach to debt management (nil long-term debt) and remain focused on generating positive cash from operations and free cash flow, allowing us to weather economic uncertainties and capitalize on growth opportunities when they arise. Our prudent financial policies and philosophy to earn profitable revenue have further strengthened our position as a reliable and trustworthy partner for all stakeholders.

The Strong Future Ahead:

Looking ahead, I am filled with great optimism and excitement. We are standing at the cusp of a new era for Infibeam Avenues, where our dedication to continuous improvement and innovation will propel us to even greater heights.

Our commitment to digital transformation remains unwavering. We recognize that the future of business lies in harnessing the potential of technology to deliver superior products and services. In this regard, we launched a revolutionary omnichannel payment solution, called CCAvenue TapPay, which can be downloaded on any Android smartphone, which converts a mobile phone into a Point-of-Sale (POS) terminal to accept

payments anytime anywhere. This solution is the first in India to allow merchants to accept payments using 200+ payment options. Furthermore, it allows consumers to use credit cards for transactions above the RBI limit of ₹ 5000, using a PIN; again, it is a first of its kind in India. We will continue investing in evolving technologies to ensure we stay ahead of the curve and offer solutions that exceed our merchants' expectations.

Furthermore, we are actively exploring opportunities in adjacent markets and exploring the potential of mergers and acquisitions to bolster our growth trajectory. Infibeam acquired Uvik Technologies last year to bolster its growth by offering an omnichannel payment solution, CCAvenue TapPay, by targeting the offline market where the company did not have any presence in the last 22+ years, as well as being able to offer this product in international markets. Our strategic vision encompasses diversification and expansion, and we will make well-informed decisions that align with our long-term objectives while maximising shareholder value.

Sustainability is another key pillar of our future strategy. We are committed to adopting environmentally responsible practices, promoting social initiatives, and embedding ethical principles throughout our operations. By aligning our business practices with sustainable goals, we will contribute positively to society while securing a sustainable future for Infibeam Avenues.

Our success is deeply rooted in our talented and dedicated team of employees. We understand that they are our most valuable asset, and their growth and well-being are vital to our continued success. We will continue to invest in their professional development, provide a nurturing work environment, and foster a culture of inclusivity and diversity.

I would also like to sincerely thank our esteemed Board of Directors for their strategic guidance and invaluable counsel. Their foresight and commitment to upholding the highest standards of corporate governance have been instrumental in guiding us on our journey of success.

CCAvenue TapPay can be downloaded on any Android smartphone, which converts a mobile phone into a Point-of-Sale (POS) terminal to accept payments anytime anywhere. This solution is the first in India to allow merchants to accept payments using 200+ payment options. CCAvenue TokenPay

CCAvenue TokenPay is an end-to-end solution for merchants to allow their customers to continue saving cards via network issued tokens in compliance with RBI recommended framework. It is a multi-network tokenisation solution, which enables token provisioning, token retrieval, token management and token processing through a unified platform without multiple integration.

In July 2022, launched world's most advanced omni-channel payment app, featuring India's first pin-on-glass SoftPoS solution – CCAvenue TapPay ('CCAvenue for Business' in Android's Play store)

Overview

While India is progressing well on the payment issuance front, there are various challenges being faced on the acquiring side, the payment acceptance infrastructure side. Certain systematic challenges are preventing the growth of digital payments in urban

as well as rural areas which is the biggest driver to India's growth ambitions.

High cost of POS infrastructure, inaccessibility to users, lack of technological know-how, difficulty in servicing, installation issues, and continuous and expensive upgrades are some of the reasons for

MERCHANT CENTRIC BUSINESS MODEL

lower adoption of POS terminals. Legacy machines lack smart analytics capability and cannot offer valuable consumer insights for focused targeting. Businesses will have to adapt to new trends and consumer demands. This is possible only when acceptance infrastructure is disrupted with low cost, convenient and safe methods.

This is where CCAvenue omnichannel payment app aims to address the challenge of inadequate payments acceptance infrastructure and eliminate barriers to seamless digital adoption. (show the cover page image here)

Advantages

The unique features of CCAvenue Mobile App will help proliferate digital payment acceptance among millions of underserved Indian MSMEs. Merchants can convert their android smartphone devices into a payment terminal by just downloading the app.

For small businesses or large, the ease of its deployment and its portability makes it the best choice for many use-cases, apart from it being zero or low cost; Improved check-out experience at high-end retail stores and restaurants, extended payment acceptance capability during busy periods (festivals, weekends, sale), accepting card payments for merchants on the go, market stalls and food delivery drivers, remote onboarding of personnel, doorstep service delivery, payments at trade fairs, etc.

Industry potential

Offline payments present a large opportunity that still remains largely untapped where Infibeam currently does not have any presence. Offline presents multiple cross sell opportunities for the company given its diverse fintech portfolio. Point of Sale and eCommerce are expected to contribute 45% and 55%, respectively, in FY24, based on RBI data of Q1 FY24, compared to almost equal contributions in FY22 and FY23. The company is targeting offline payments to increase its market share in digital payments and offer a unified solution to merchants.

The Government and the RBI are proactively working to promote digital payments in the country through forward-looking policies like Financial Inclusion, PM Jan Dhan Yojana, Meity's Digidhan mission and the rolling out of the PIDF scheme which aims to incentivize the deployment of payment infrastructure across India.

The density of population dependent on a POS terminal is 358 in India, as per RBI, as against 20 in China, 10 in Brazil, Turkey, Netherlands and Italy. The dataset comparing 22 countries, showcases India to have the lowest POS density per person.

Government aims to reach to the bottom of the pyramid and RBI aims to triple digital payment transactions by 2025.

Also, there is huge opportunity for credit as India is credit starved. Increasing 'digital volumes' through no/low-cost digital infrastructure will allow merchants to be a part of 'organised or semi-organised retail' which can be leveraged by lenders to provide credit to boost growth at the grassroots levels.

FINANCE

Express Settlement, Loans & Invoice Discounting

Infibeam's Financing initiatives are aimed at monetising on the large and growing merchant database the company has. The Finance vertical will provide quick access to flexible financing making it simpler for businesses to maintain steady working capital for accelerated growth and improved operational efficiency. For this the company plans to target its growing base of merchant by connecting them to the lenders through its lending platform, TrustAvenue, to provide working capital loans, invoice/bill discounting, or by offering early settlement to digital payment merchants. In the process, the company will not take any credit exposure, but will be an enabler.

Express Settlements

The company offers early payments to merchants in the digital payments business, called CCAvenue Express Settlements. It provides rolling capital merchants by reducing the pay-out cycle from the default T+3 or T+2 days to within a few hours from the time of transaction.

Fable Fintech (Fable) offers remittance technology platform for cross border payments to banks, businesses and exchange houses as a one stop platform to launch remittance services.

Infibeam has an investment, 16.7%, in Fable to capture remittance market globally. In May 2021, the Company participated in Series A fund-raising round of Fable Fintech along with many other marquee investors to unlock the fintech potential of banks across the globe.

For the future, apart from foreign expansion, Fable is creating an innovation for banks to offer neo banking for expatriates, participation in the NUE along with Infibeam, offering core treasury products, cross border ecommerce payments, and more. Fable projects that, *"One in every 4 dollars going cross border would be touching or using a platform from the Fable Family"*.

Fable has been growing at a CAGR of 85% over the last five years. The company aims to make a profit shortly with a predicted annual rate of return of 30%.

Going forward Infibeam through this investment expects to gain revenue growth from the global remittances segment and increase shareholder wealth.

The end to end plug and play bank grade cross border remittance platform can be white labelled for banks with blockchain technology to launch cross border payments.

Today, Fable caters to nine out of 10 top private sector banks in India including HDFC Bank, IDFC First Bank, Canara Bank, etc. In addition, Fable's platforms are also used by clients in Kuwait, Bahrain, Qatar, UK, Singapore, Bangladesh and Canada.

The offerings in this segment include:

International remittance platform offered to banks and financial institutions with blockchain technology (P2M) and to consumers (P2P) for both inward and outward remittances across various corridors globally.

Opportunity Spectrum

'Global cross-border payment flows, currently growing at 5% (CAGR), are expected to reach US \$156 Trillion by 2022', as per an EY Report.

In 2020, the top five recipient countries for remittances inflows in current USD were India (83 billion), China (60 billion), Mexico (43 billion), the Philippines (35 billion), and Egypt (30 billion) (ibid.). India has been the largest recipient of remittances since 2008. India received over USD83 billion in remittances in 2020.

MACRO-ECONOMIC SCENARIO

The Digital Revolution in India's Macroeconomic Landscape

Introduction

India, with its vast and diverse economy, has witnessed remarkable transformations in recent years, particularly in the realm of macroeconomics. A pivotal factor contributing to this transformation is the nation's embrace of digital technology, reforms that foster the growth of startups, and substantial tech investments. These advancements have played a pivotal role in propelling India's digital economy and have set the stage for a surge in digital payments.

There are definite improvements in reforms in India that are aiding the digital economy, fostering a thriving startup culture, attracting tech investments, and consequently, driving the growth of digital payments.

Reforms Powering the Digital Economy

The Indian government has initiated a series of policy reforms aimed at promoting a robust digital economy. One such reform is the "Digital India" campaign, launched in 2015, which seeks to bridge the digital divide and provide digital access to all citizens. This initiative has laid the foundation for the rapid expansion of digital infrastructure, including internet connectivity, which is crucial for the growth of the digital economy.

Startup Culture and Tech Investments

India has witnessed a surge in startup culture, with a flourishing ecosystem of innovative companies. This phenomenon is largely driven by government initiatives such as “Startup India,” which offers incentives and support to budding entrepreneurs. Additionally, India's vast pool of tech talent has been instrumental in attracting investments from both domestic and international sources.

The startups across various sectors, including e-commerce, fintech, health tech, and edtech are not only transforming industries but also creating employment opportunities and contributing significantly to the country's GDP.

Digital Payments Revolution

One of the most striking outcomes of India's digital transformation has been the surge in digital payments. The government's demonetization move in 2016 accelerated the adoption of digital payment methods. Digital acceptance of payments, through cards, payment through UPI (Unified Payments Interface), mobile wallets and many alternative forms of payments have become increasingly popular, making it convenient for individuals and businesses to transact digitally.

Moreover, the COVID-19 pandemic accelerated the shift towards digital payments as people sought contactless alternatives. This trend has further cemented the importance of digital payments in the Indian economy.

Opportunities Ahead

Looking ahead, the opportunities in India's digital ecosystem are immense. With a large and increasingly tech-savvy population, the digital economy is expected to continue its rapid expansion. Here are some key areas where growth is anticipated over the next decade:

- 1. Financial Inclusion:** India's digital ecosystem can work towards bringing millions of unbanked and underbanked individuals into the formal financial system, promoting financial inclusion.
- 2. E-commerce Boom:** The e-commerce sector is poised for substantial growth as more Indians shop online. This will drive the need for secure and convenient digital payment solutions.
- 3. Digital Infrastructure:** Continued investments in digital infrastructure, including 5G networks, will provide the necessary backbone for the digital economy to flourish.

4. Data Analytics and AI: Leveraging data analytics and artificial intelligence will enable businesses to better understand consumer behavior and provide tailored services, including payment solutions.

5. Cybersecurity: As digital transactions increase, so will the importance of robust cybersecurity measures to protect financial data.

Conclusion

India's macroeconomic landscape is undergoing a remarkable transformation, driven by reforms that support the digital economy, foster a thriving startup culture, and attract tech investments. This transformation has propelled the growth of digital payments, making them an integral part of daily life for millions of Indians. As the nation continues on this path of digitalization, the opportunities that lie ahead are abundant. With a proactive approach to innovation, investments, and policy support, India is well-positioned to become a global leader in the digital ecosystem and witness exponential growth in digital payments over the next decade.

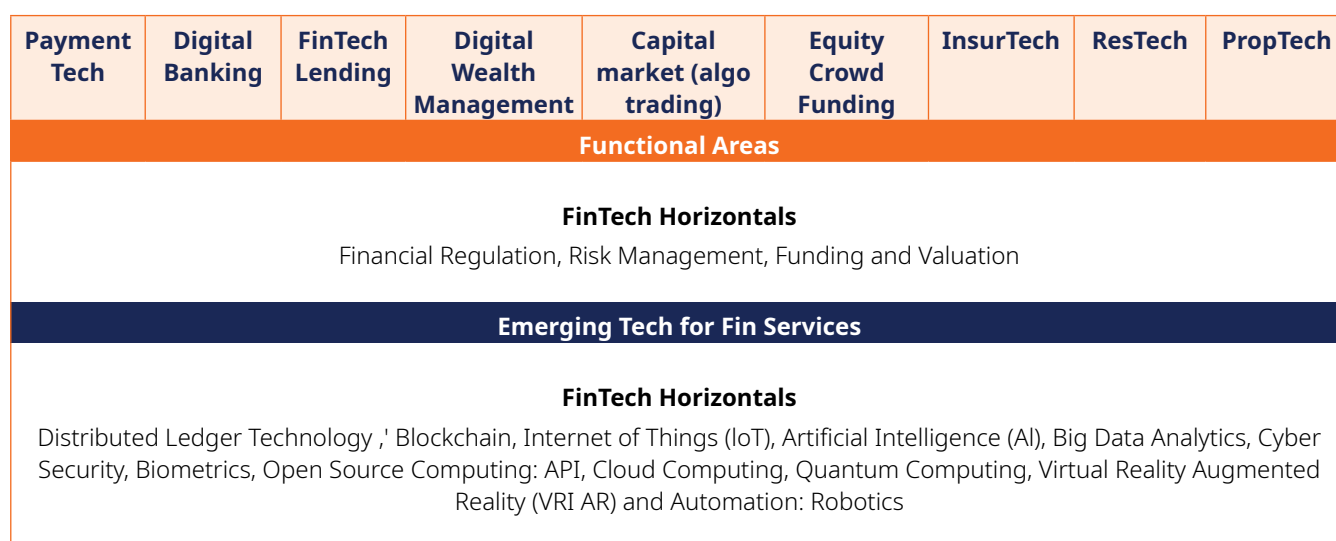

FINTECH INDUSTRY

Introduction

Fintech is a broad category of software applications and different digital technologies deployed by the intermediaries that provide automated and improved financial services competing with traditional financial services. Fintech, as the name states, uses technologically advanced offerings in finance, enabling digitisation of payments, receipts or transfers, and

includes Payment Technology, Digital Banking, FinTech Lending, Wealth management, InsurTech, etc. stylised in the following diagram (Source: RBI, Nov 2021).

Like in any domain, even fintech businesses can be either business-to-business (B2B) category or business-to-consumer (B2C) category. B2B businesses are those that cater to other businesses with their products and services; whereas business that sell their products and services directly to end consumers are classified as B2C.

Source/ Base: A taxonomy of FinTech by Michael B. !merman and Frank J. Fabozzi

Infibeam Avenues operates in the B2B Fintech space offering digital payments and software platforms for eCommerce to small and large businesses, both private and public sector enterprises, including banks.

Cashless transactions set to rise globally

As of May 2023, there were 11,651 fintech (financial technology) startups in the Americas, making it the region with the most fintech startups globally. In comparison, there were 9,681 fintech startups in the EMEA region (Europe, the Middle East, and Africa)

and 5,061 in the Asia Pacific (APAC) region. This has increased compared to the data we presented in our FY22 annual report; as of November 2021, there were 10,755 fintech startups in USA, 9,323 in the EMEA and 6,268 in the APAC (Source: Statista).

Fintech in India is a sunrise sector that will lead to massive innovation in the Banking, Financial Services and Insurance sectors

2015 saw the birth of Fintech in India, with the advent of many products and services, which gradually multiplied from 2016 onwards and eventually got a rapid unparalleled boost in the past two years. Fintech is probably one of the very few sectors that took colossal leaps forward when every other sector reached the nadir, while the world was held captive by the pandemic.

In absolute terms, India currently stands at the third place in the Fintech arena, behind USA and China, in just five years since demonitisation in November 2016. Yet, we became global leaders in 2020 in real-time payments, 62% ahead of China at number two, setting an example for the world to see our progress in such a short span. Also, India has the highest Fintech adoption rate of 87% versus an average global rate of 64%.

India turning into a Fintech hub can be attributed to the explosion in this sector. The seeds of future global fintech ecosystem are already being sown in India, challenging the traditional financial sector and the legacy banking system. In 2021, India bagged around 40% of fintech deals in the APAC region. In 2021-22 fintech continued its lead doing 278 deals worth US\$ 8.5 billion vs 240 deals in 2020-21 worth US\$ 7.3 billion. Despite global challenges, as per data published by PwC, Fintech along with SaaS had the highest share

of funding totalling more than USD 3.1 billion. India is host to around 2100+ fintech companies, as per 2nd edition of MEDICI's India FinTech Report, 67% of which have come into existence in the past five years.

Organisations are reconceptualising this industry in the post pandemic world. Fintech is seen to be percolating through most verticals ranging from retail to education, from hospitality to health. Digital payment is the largest pie within Fintech, where Infibeam Avenues has been among the leaders and is constantly innovating and scaling its operations. Digital Lending is the next biggest and among the fastest growing opportunity within Fintech where Infibeam Avenues is making inroads through various initiatives to help merchants/businesses grow as well as help lenders reach a larger underserved and/or unserved audience.

Within Fintech, Digital Payments in India presents multi-year high growth opportunity

As per a recent (May 2022) report by BCG and PhonePe; 40% of payments (by value) are digital, contributing to a US\$3 trillion digital payment market on account of rapid expansion in digital infrastructure, pandemic-led acceleration of shift in customer preferences, growing merchant acceptance network and disruptive innovations by the fintechs.

Yet, certain segments of the market remain underpenetrated with considerable room for growth. The next wave of growth is likely to come from Tier 3-6 locations, as evidenced in the past two years

wherein Tier 3-6 cities have contributed to nearly 60-70% of new mobile payment customers.

Expanding merchant acceptance, digitization of value chains, and establishment of financial services marketplace in underpenetrated segments are the primary factors that will spur the rapid growth of digital payments in India. The emergence of embedded payments via 5G and the Internet of Things (IoT), and the launch of India's sovereign Digital Rupee are, together, expected to provide further impetus.

India's digital payments market is at an inflection point and is expected to more than triple from

US\$3 trillion today to US\$10 trillion by 2026. As a result of this unprecedented growth, digital payments (non-cash) will constitute nearly 65% of all payments by 2026 i.e., 2 out of 3 transactions (by value) will be digital.

India will become a digital payment economy and **merchant payments will emerge as the most powerful driver** of this growth. BCG expects that merchant payments will soon outpace person-to-person fund transfers.

Encouraging trends in Digital Payments in India

As per RBI, digital payments volume (comprising Debit & Credit Card Payments, Prepaid Payment Instruments and UPI) in India increased at a compounded annual

growth rate (CAGR) of over 61% in the past five years from 9.1 billion in 2017-18 to 97.5 billion in 2022-23; over 10 times in 5 years. The year 2021-22 alone has seen a growth of 78% year-over-year while 2022-23 has seen a growth of 67% in volumes year-over-year, setting a stage for a strong digital payments' growth

Trends in Digital payments in India

According to a report by the World Bank Development Research Group, “Integrating digital payments addresses crucial issues of broad economic growth and individual financial empowerment”. RBI in its Payment Vision 2025 expects digital payments to triple. Hence, Digital Payments will have a crucial role to play in India’s ambitious growth plans.

in India. Additionally, in value terms, digital payments in 2022-23, was ₹ 163.6 trillion (USD 2.0 trillion), up, a strong 57% compared to previous year.

India’s Chief Economic Adviser (CEA) Mr V. Anantha Nageswaran said India would become a USD 5 trillion economy by 2026-27 and USD 10 trillion by 2033-34. Honorable Industry and Commerce Minister Mr. Piyush Goyal expects India to become \$30 trillion in the next three decades.

Current trends in Digital Payments indicate a strong growth for 2023-24 and beyond as the country moves towards its vision to become a USD 5 trillion and USD 10 trillion economy.

Recurring transactions through Cards (Credit and Debit) for growing subscriptions to OTT platforms, journals and news portals, will contribute to an increase in transaction volumes. Further, the RBI mandate on expanding the scope of permitted devices and allowing card on file tokenisation will contribute to the growth of card payments. It will impart security and enhance the customer experience of card payments at e-commerce sites and through enabled devices at physical points. Card-based transactions are expected to continue to witness steady growth, at almost 16% year on year for the next four years (Source: PwC).

Prepaid instruments (eWallets and cards); Latest developments around wallet interoperability and the influx of online workspace could result in steady revenue flow for gift cards and the wallet industry. More corporates are entering into prepaid segments like expense management and food cards, which can also result in the overall steady growth of PPIs.

Bill payments form a major component of retail payment transactions. Launched in 2016 and owned and operated by NPCI, BBPS is envisioned as a one-stop interoperable, accessible and cost-effective ecosystem for payment of all utility bills. Moreover, it is available 24x7. It provides a single platform that allows banks and non-banks in aggregation business, payment service providers, billers, retailers and customers to connect, present and pay bills.

Government initiatives towards building better infrastructure, particularly for rural areas, shall lead to more households with electricity and water supply, subsequently adding more demand for telecom and gas connections, and hence, increasing the customer base of BBPS users. By 2025–2026, new biller categories are expected to reach an estimated value of ₹ 1,179 billion (USD 16 billion) with existing categories still accounting for a majority of the transaction value at an estimate of ₹ 2,189 billion (USD 29 billion).

International payments act as a catalyst for cross-border trade and investments, and have played an important part in shaping up the Indian economy. Despite the pandemic, there has not been a significant change in the volumes of **cross-border remittances**.

Cross-border remittances (inflow vs outflow) (in ₹ billion)

Expansion of merchant acceptance points will lead to an all-inclusive digital payment's growth in India

India is the largest global market for inward remittance flow at approximately ₹ 6 trillion. Since 2016, the volume of India's cross-border remittances has grown steadily at a CAGR of 4.5%.

The emergence of FinTech has eased cross-border payments. Indian banks have partnered with various international exchange houses to provide faster inward remittance services to Indians residing abroad. The International Financial System (IFS) and faster payments rails with more innovative approaches have been adopted by FinTechs in the cross-border payments space which is expected to reach ₹ 10,496 billion (USD 140 billion) by the end of 2025–26. The cost of cross-border remittances will keep decreasing as FinTechs continue to make technological advancements and operational innovations.

While India is progressing well on the payment issuance front (>900 million debit cards, over 75 million credit cards, over 2.5 billion wallets) there are **challenges being faced on the acquiring side, that is, the payment acceptance side.**

The growth of digital payments as a safe and convenient medium for financial transactions makes it necessary to strengthen the acceptance infrastructure across the country and achieve the core theme set by RBI in Payment Vision 2025, E-Payments for Everyone, Everywhere, Everytime. Data from the RBI shows that

the PoS acceptance infrastructure in India is currently concentrated in tier 1 and 2 cities (Source: PwC and SBI data). The RBI has announced the creation of a Payments Infrastructure Development Fund (PIDF) to encourage acquirers to deploy PoS infrastructure in tier 3–6 centres and north-eastern states. As the deployment of acceptance infrastructure gains pace, there will be a jump in digital payments and demand for PoS machines.

Number of PoS terminals per 100,000 inhabitants in BRICS nations

In 2021-22, the number of POS terminals across the country has only increased by 1 million to reach 6.1 million in March 2022 (Post-Covid) compared to 5.1 million in March 2020 (Pre-Covid), despite a significant growth in overall digital payments. Post-Covid, in FY23, number of POS terminals increased by 1.7 million to reach 7.8 million as consumers went back to offline shopping. However, this number is still low as compared to the large Indian population that still shops offline. Certain systematic challenges are preventing the growth of digital payments in urban as well as the rural and remote areas in India, like expensive POS, service issues, far away locations, high cost of upgrade, etc. The number of terminals per 100,000 inhabitants can be considered as one of the indicators of the level of financial inclusion in a country. In India, this number stood at around 279 in 2018, which means the density of population per PoS terminal is around 358. The figure below shows the increase in the number of PoS terminals per 100,000 inhabitants in the BRICS nations from 2014 to 2018 (Source: PwC and Bank for International Settlements: <https://stats.bis.org/statx/srs/table/CT14B?p=2018>). Addressing these issues is a pre-requisite for growth of digital payments in India.

Separately, India is largely a debit card market with the number of debit cards (961 million) being 11.3 times higher than that of credit cards (85.3 million) in March 2023.

There is huge opportunity for the credit sector as, our country is credit starved. There are millions of unserved and underserved MSMEs not able to secure credit due to 'no credit' or 'insufficient' credit and repayment history. Increasing digital volumes will allow merchants to be a part of 'organised or semi-organised retail' which can be leveraged by lenders to provide credit to boost growth at the grassroot levels. Hence businesses will have to adopt to tech-led trends and consumer demands to uplift their own standards.

All this is possible only when acceptance infrastructure is disrupted with low cost, convenient and safe methods allowing digital payments to reach every nook and corner of the country. A typical PoS machine costs ₹ 12,000/- while a typical mPoS machine costs ₹ 5,000/- (RBI Notification: Card Payments – Relaxation in requirement of Additional Factor of Authentication for small value card present transactions, RBI/2014-15/601, dated 14 May 2015). Particularly for micro, small and medium sized businesses, and tier 2 and 3 cities, this cost of the PoS terminal, along with costs of maintenance and upgradation, often become a barrier to PoS adoption.

PoS devices supporting contactless payments from cards or near-field communication (NFC) enabled devices with payments application and authorisation have gained significantly in terms of value and are playing a crucial role in the steady growth of PoS devices, estimated to have increased by 15% compared to 2020 (Source: PwC, RBI). The adoption of contactless PoS terminals has positively impacted revenue growth in the merchant acquiring space.

As an opportunity, India is home to 65 million MSMEs and 12.8 million retail stores.

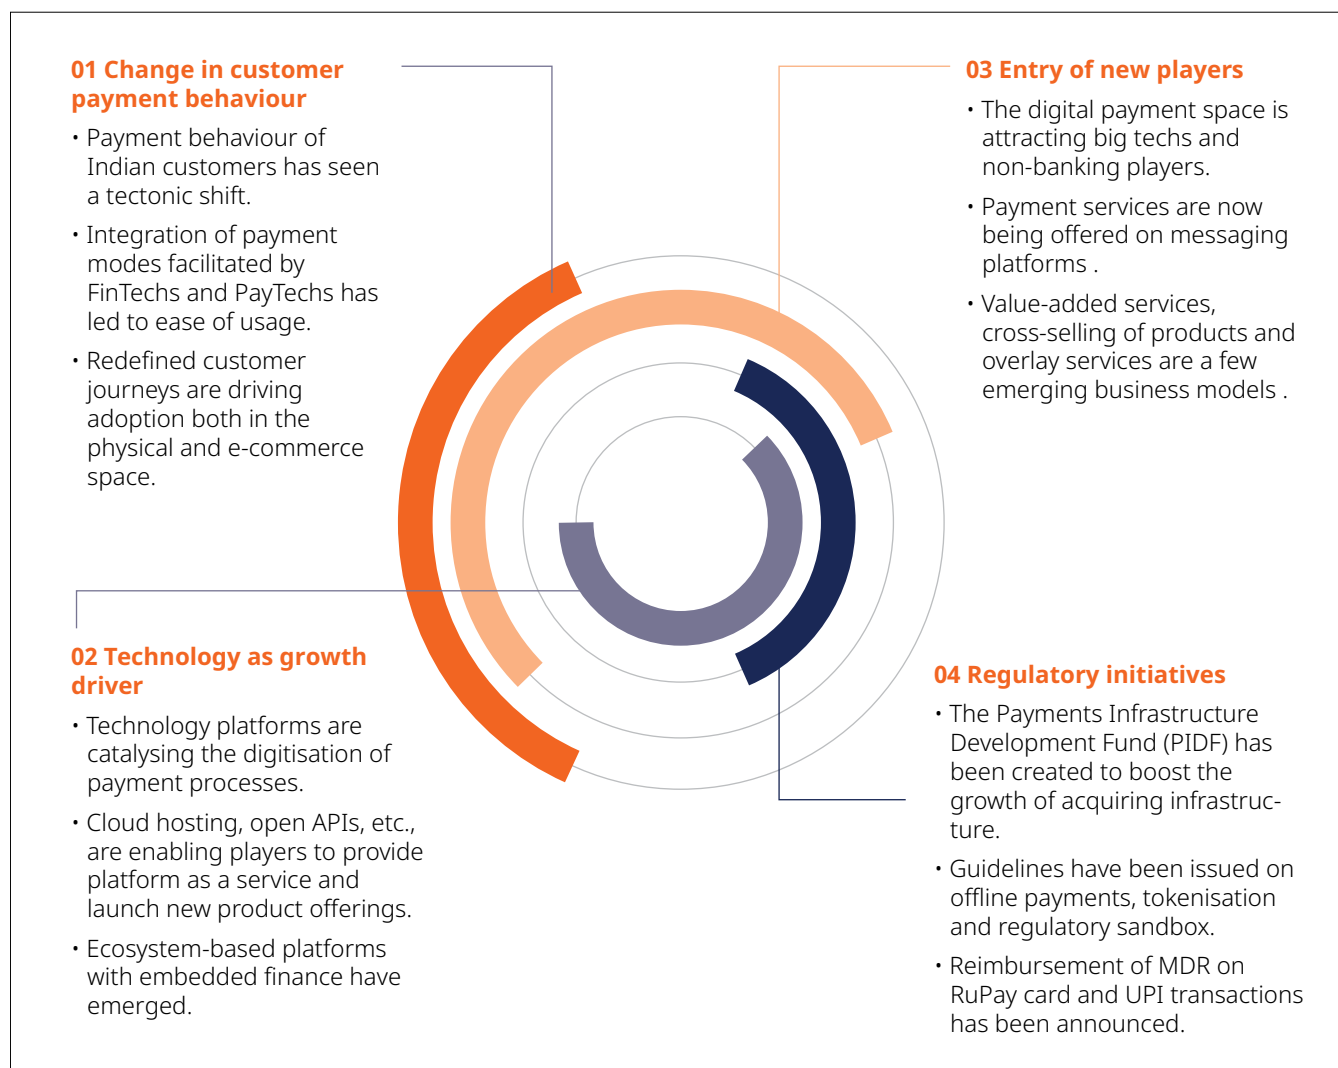

India Digital Payments Growth Drivers

India's young demographics and an ever-growing start-up culture among young Indians, sets a stage for tremendous growth through tech-led initiatives. This, coupled with cheap data, affordable smartphones, Government's BharatNet project, upcoming 5G technology, are some of the drivers that will make India Digital and leading to growth of Digital Payments.

Considering the 65 million MSMEs in India, we estimate there are only about 20-25 million merchants using digital payments. Of these, only about 5-10 million effectively use broad-based digital payments features while most use it sparingly. This leaves 50% of all the MSMEs out of the digital ecosystem. We estimate that the number of MSMEs will increase to 75-80 million in the next five to seven years. There are about 300 million consumers using digital payments in India, where there are one billion mobile connections and nearly 700 million smartphone users. The cash in circulation has also increased to 14.5% reaching ₹ 31 trillion, one of the highest in the recent times. The government aims to make India cash-lite, thereby reaching to every person in India, and boost digital transactions for speed, productivity and transparency.

Another important growth driver is the retail sector in India. India has 12.8 million retail stores across

To increase the acceptance infrastructure, Infibeam Avenues, has made this a purpose to drive infinite ecommerce. We aim to lead this transformation by offering the world's first and most advanced omnichannel payment app (CCAvenue mobile app) featuring India's first pin-on-glass SoftPOS solution- CCAvenue TAPpay, CCAvenue TAPpay. The launch of CCAvenue omnichannel mobile app will widen Company's customer reach to include all offline merchants apart from a wide online merchant coverage the company already enjoys.

various segments (groceries, fashion, electronics, toys, stationary, departmental stores, services, etc.). The retail sector in India is one of the top contributors to the economy and a key driver of growth. The demand for digital payments (offline and online) is linked to growth in the retail sector. The retail sector is expected to grow at a CAGR of 21% until 2026, with total market size of retail stores expected to reach USD 1,750 billion by 2026.

Collectively, this presents a big opportunity for digital payments growth in India. Some other key drivers of digital payments are highlighted below (Source: PwC analysis, RBI, MeitY).

A. Analysis of Revenue

1. Revenue from operations

(₹ in mn)	FY 23	FY 22	Change
Operating Revenue	19,623.39	12,939.34	51.7%

Revenue grew from ₹ 12,939.34 million in FY22 to ₹ 19,623.39 million in FY23. The growth is aided by both higher number of transactions and higher value of transactions for payment processed. Details are given below:

Particulars	FY 23	FY 22	Change
Volume of transactions processed (Nos. mn)	360	299	20.4%
Value of transactions processed (₹ in bn)	4447	2929	51.8%

Our Fintech offerings are in two broad business segments and segment-wise generation of revenue has been as follows:

Business Segment	FY 23	FY 22	Change
Payment Business	17,932.35	11,340.86	58.1%
E-Commerce Platform Business	1,691.04	1,598.48	5.8%
Total operating revenue	19,623.39	12,939.34	51.7%

The increase is mainly attributable to

- Higher utilization of Payment Gateway.
- Increased transactions in Government e Marketplace (GeM).
- Payment's expansion internationally (UAE).
- Higher transactions in Bill Payments (BillAvenue).
- Remittance & Assisted Commerce (Go Payments)

Our Fintech offerings can be further analyzed from the following perspectives:

Pers-pective	Revenue from operations (₹ in mn)	FY 23	FY 22	Change
Geography	India	18,446.50	12,133.44	52.0%
	Abroad	1,176.89	805.90	46.0%
	Total	19,623.39	12,939.34	51.7%

2. Other Income

(₹ in mn)	FY 23	FY 22	Change
Other Income	707.30	99.98	607.4%

The change is mainly on account of M2M gain and profit on sale of investment, interest income and net gain on account of foreign exchange fluctuation.

B. Analysis of Expenses

1. Operating expenses

(₹ in mn)	FY 23	FY 22	Change
Payment gateway processing charges and other operating expenses	16,339.68	10,345.45	57.9%
% of revenue	83.3%	80.0%	

It primarily consists of costs incurred in operating online payment gateway with a real-time transaction validation process. Processing charges as a percentage of Revenue may vary due to several factors, such as our level of productivity and accuracy, changes in volume and size. We have reported processing charges of ₹ 16,339.68 million in FY23 as against ₹ 10,345.45 million in FY22. The Payment gateway processing charges as a % of Revenues has increased by 57.9% as transaction value has also increased significantly.

2. Employee benefits

(₹ in mn)	FY 23	FY 22	Change
Employee benefits	1078.25	817.80	31.8%
% of revenue	5.5%	6.3%	

Employee benefit costs primarily consist of cost of salary and other terminal benefits like, gratuity, provident fund contribution etc. along with cost of compensation of stock options issued to various employees. Our primary cost comprises of Technology costs to carry out technological research and development activities. Our prime requirement of employees is in various technological segments like application, production, design, maintenance, operation, and platform development for new and existing products and services and other technology infrastructure. We seek to invest efficiently in several areas of technology development so we may continue to enhance the customer experience and improve our process efficiency through rapid technology developments while operating at an ever-increasing scale. We expect spending in technology

cost to increase over time as we continue to add employees and technology infrastructure.

31.8 % increase in employee cost during FY 2023 is because of annual increments and recruitment of new employees to take care of growing business.

3. Finance Costs

(₹ in mn)	FY 23	FY 22	Change
Finance Costs	19.43	19.34	0.5%
% of revenue	0.1%	0.1%	

Finance cost remained consistent in view of free cash flows.

4. Depreciation and Amortisation

(₹ in mn)	FY 23	FY 22	Change
Depreciation and Amortization	616.02	626.37	-1.7%
% of revenue	3.1%	4.8%	

There is a decrease of 1.7% in Depreciation and Amortisation as compared to previous year since the group follows WDV method of depreciation.

5. Other expenses

(₹ in mn)	FY 23	FY 22	Change
Other Expenses	409.56	326.25	25.5%
% of revenue	2.1%	2.5%	

Increase of other expenses by 25.5% in FY23 is mainly on account of

- Increased expenses in Web Hosting & Web servers support expenses due to increased consumption of web services.
- Increased legal and professional expenses for business expansion/customer acquisition and other technical consultancy charges.
- Increased travelling expenses for business expansion/customer acquisition.
- Increased rent and office expenses.

6. Income tax

(₹ in mn)	FY 23	FY 22
Current tax	19.76	(247.46)*
Deferred Tax	439.71	394.52
Total tax expense	459.47	147.05
Profit Before Tax	1822.16	983.56
Tax as % of Profit before tax	25.2%	15.0%*

Income tax as % of Profit before Tax in FY 23 is 25.2% since the company has opted for section 115BAA of the Income Tax Act, 1961.

*Income tax as % of Profit Before Tax in FY 22 is lower since company has reversed the excess income tax provision of earlier years and recognised deferred tax liability on difference in tax base on goodwill and deferred tax assets on unabsorbed depreciation under tax laws as per the amendment in Income Tax Act in respect of allowability on depreciation of goodwill by Finance Act 2021.

CONCLUSION

Digital Payments Opportunity in India to Increase >3x to US\$ 10 trillion by 2026

The growth of the digital payments ecosystem has been supported by an expanding e-commerce marketplace and the wider availability of acceptance infrastructure at physical stores. With changing customer preferences, new use cases are being made a part of product offerings, rendering traditional payments modes obsolete. New product offerings developed with technological and infrastructural advancements are ushering in an era of innovative and fast digital payments, and nurturing the growth of retail payments.

India is one of the world's largest growing FinTech markets, including Digital Payments. Its overall Digital Payments market opportunity is estimated to be US\$ 10 trillion by 2026 (Source: BCG Phone Pe Pulse Analysis), growing more than 3x in five years. Banks and card networks are collaborating with FinTechs to redefine product offerings and enhance customer experience, in order to create effective solutions and thrive in the new payments landscape.

Payment Service Providers (PSPs) are leveraging existing platforms to offer a plethora of innovative digital payments solutions. The pandemic has resulted in more users adopting digital payments, and this trend is expected to continue as economies worldwide continue to recover.

Additionally, to democratise digital payments, the payments acceptance infrastructure needs to improve, and Fintechs need to innovate and offer cost effectively PoS solutions that will increase the payment acceptance, as digitalising and including the Tier 2-6

parts of the country is integral to India's ambitious growth targets. And SoftPoS makes for a good, cost-effective alternative.

Further, the RBI has also issued regulatory guidelines supporting the softPoS ecosystem, which ease merchant acquisition via remote onboarding and encourage merchants and customers alike to turn to the use of contactless payments. Hence, the softPoS has the potential to revolutionize the merchant acquiring business, allowing merchants to accept payments via a simple app download, and thus increasing digital payments penetration in the country.

RISK FACTORS

Our business is susceptible to several risks and we believe in highlighting some of the key risks to maintain transparency with all our stakeholders. You should carefully consider these risks and all other information in the Annual Report. Any of these risks could adversely impact our business operations, financial position and prospects. For more risk factors, refer to our IPO prospectus filed with Securities and Exchange Board of India (SEBI).

1. We face intense competition in our business

Our web services industry, and especially the digital payments industry is intensely competitive and we expect competition in the industry to continue to increase. Our present and future competitors may range from large and established companies to emerging start-ups, Indian as well as large multinational companies, operating in India and in international markets where we have our operations. Since the barriers to entry for the companies are relatively low, we may also face increased competition from new

entrants in our industry. We may respond by increasing advertising and promotions, which may increase our costs and may not reflect past trends.

Our competitors may have one or more of the following advantages compared to us – greater financial and other resources, advanced technology, larger sales and marketing networks, greater knowledge of the target markets, more extensive research and development and technical capabilities, logistics support, greater pricing flexibility, longer operating histories and/or strong branding and reputation. These advantages may assist them in attracting our merchants and customers.

The management of some of these competitors may have more experience in implementing their business plan and strategy. Our present and future competitors with requisite financial and other resources may be able to innovate and provide superior products and services more efficiently than we can. If our competitors leverage on these qualities to provide comparable or superior services and products, and we are unable to respond successfully to such competitive pressures, our customers could significantly decline, which would have a material adverse effect on our business, financial condition and results of operations.

There can be no assurance that we will have sufficient resources to respond to competitors' investments in pricing and other promotional programmes or technological developments. We may be required to reduce our operating margins in order to compete effectively and maintain or gain market share. In the event that we are unable to provide superior services than our competitors, including superior technology, value added and user-friendly services, we may not be able to attract customers to us, which could have material adverse effect on our business, results of operations and financial condition.

2. The payment processing industry is intensely competitive in India

The payment processing industry is very competitive. We are facing competition from new players that are offering services below cost price to increase their market share. They are backed by significantly large investors providing strong financial support, despite these players burning

heavy cash. Accordingly, these competitors may be able to offer more attractive fees to our current and prospective clients that we are not able to provide. Competition could result in a loss of existing clients, and greater difficulty attracting new clients. Furthermore, if competition causes us to reduce the fees we charge in order to attract or retain clients, there is no assurance we can successfully control our costs in order to maintain our profit margins. One or more of these factors could have a material adverse effect on our business, financial condition and results of operations.

3. Our financial performance may experience high degree of fluctuations and we may also experience decelerated growth rates

Our revenue growth may not be sustainable, and our percentage growth rates may decrease. Our revenue and operating profit growth depends on the continued growth of demand for the web services offered by us and our services offered through our agent network. Our business is also affected by general economic and business conditions in India and in the regions we operate. It is impacted by the macro factors prevailing globally as well. A softening of demand, whether caused by changes in customer preferences or a weakening of the India or global economies, may result in decreased revenue and growth.

Our operating results will also fluctuate for many other reasons, including some of the following:

- Unfavorable changes in regulation;
- Our ability to offer our web services on favourable terms;
- The success of our service line and expansions;
- Variations in the mix of services we sell;
- Factors affecting our reputation or brand image;
- Our ability to retain and expand our business network;
- Our ability to satisfy our customers' demands and meet their expectations;
- Changes in usage or adoption rates of the internet, eCommerce, electronic devices, and web services, in the regions we operate and where we plan to expand;
- Timing, effectiveness, and costs of expansion upgrades of our systems and infrastructure;

- The outcomes of legal proceedings and claims, which may include significant monetary damages or injunctive relief and could have a material adverse impact on our operating results;
- The extent to which we invest in technology and other expense categories;
- Our ability to collect amounts owed to us when they become due;
- The extent to which use of our services is affected by spyware, viruses, phishing and other spam emails, denial of service attacks, data theft, computer intrusions, outages, and similar events; and terrorist attacks and armed hostilities.

4. Our expansion into new technology, geographical regions, other web services is subject to additional business, legal, financial and competitive risks

We have in recent periods experienced significant and rapid growth in our business operations from organic growth and acquisitions, which has placed, and will continue to place, significant demands on our managerial, operational, and financial infrastructure. Our integrated Web Services business model involves wide range of modular, customisable solutions developed on an advanced technology platform.

We continue to rapidly grow our business operations, targeting rapid merchant and customer acquisition in India as well as internationally, particularly in the Middle East with our current operations there, and as we plan to grow in many more international locations. We have already announced to launch our operations in the KSA and USA where we will face challenges related to the local market.

As our operations grow in scale and complexity, whether through offering of new services or expansion into new markets, we must continuously improve, upgrade, adapt and expand our technology systems and infrastructure to offer our merchants and customers enhanced services, features and functionality ahead of rapidly evolving consumer demands, while maintaining the reliability and integrity of our systems and infrastructure in a cost-efficient and competitive manner.

In addition, to effectively manage our growth, we will also need to continue to improve

our operational, financial and management controls, and our reporting systems and procedures. In particular, continued growth increases the challenges involved in, amongst others, continuous training and development of skilled and competent personnel and employees and developing and improving internal administrative infrastructure. These systems, enhancements and improvements will require significant capital expenditures and management resources. Our capital expenditure in the past may not reflect our future.

5. We may not be able to expand our share of the existing payment processing markets or expand into new markets which would impede our ability to grow and increase our profitability

Our future growth and profitability depends upon the growth of the markets in which we currently operate and our ability to increase our penetration and service offerings within these markets, as well as the emergence of new markets for our services and our ability to penetrate these new markets.

Our expansion into new markets is dependent upon our ability to adapt our existing technology and offerings or to develop new or innovative applications to meet the particular service needs of each new market. In order to do so, we will need to anticipate and react to market changes and devote appropriate financial and technical resources to our development efforts, and there can be no assurance that we will be successful in these efforts.

Furthermore, in response to market developments, we may continue to expand into new geographical markets and foreign countries in which we do not currently have any operating experience. We cannot assure you that we will be able to successfully continue such expansion efforts due to our lack of experience and the multitude of risks associated with global operations or lack of appropriate regulatory approval.

6. We may be unable to effectively manage our funding and liquidity risk arising from unsecured loan in Credit Card business we are entering into, materially affecting our funding, profitability, liquidity and ability to meet our obligations

We need funding and liquidity in our credit card business to effectively run and grow the business.

We may exhaust our own cash surpluses once we achieve scale, at which point we will have to access various funding options from multiple sources to get sufficient liquidity and/or credit line to scale the business. If we are unable to get funding or sufficient credit line from lending institutions we will not be able to grow the business.

We need to effectively manage our funding and liquidity in order to meet our daily cash requirements relating to operating expenses, extensions of revolving credit to our cardholders, payments of principal and interest on our indebtedness and payments on our other obligations. If we do not have sufficient liquidity, we may be exposed to maturity mismatches between our assets and liabilities, face liquidity shortfalls and may not be able to meet our obligations when due, particularly during a liquidity stress event.

We may also face issues in collection once we have offered credit to corporates who may not be able to make payment for the spends on the credit cards or may defer payment which can severely impact our growth and can also result in Non-Performing Assets (NPAs).

Disruptions, uncertainty or volatility in the capital or credit markets, such as the uncertainty and volatility experienced in the capital and credit markets during periods of financial stress and other economic and political conditions in the global markets, as well as the Government of India's indebtedness levels and fiscal policies, may limit our ability to obtain additional financing or refinance maturing liabilities on desired terms (including funding costs) in a timely manner or at all. As a result, we may be forced to delay obtaining funding or be forced to issue or raise funding on undesirable terms, which could significantly reduce our financial flexibility and cause us to contract or not grow our business, all of which could have a material adverse effect on our results of operations and financial conditions.

7. Our credit card portfolio is not supported by any collateral to ensure repayment. We may be unable to collect the unpaid balance

We will extend revolving unsecured credit to our cardholders as part of our business operations. Unsecured credit card receivables present a greater credit risk for us than a portfolio of secured loans because they are not supported by realisable collateral that could help ensure

an adequate source of repayment for the credit card receivables. Although we may obtain direct debit instructions from our cardholders for such unsecured credit card receivables, we may still be unable to collect in part or at all in the event of non-payment by a cardholder. Further, any expansion in our unsecured credit card receivables portfolio could require us to increase our provision for credit losses, which would decrease our profitability.

8. Government regulation is evolving and unfavorable changes could harm our business

We are subject to general business regulations and laws, as well as regulations and laws specifically governing the internet, eCommerce, electronic devices, and other services. We are also subject to regulations and laws in all the international regions we operate in. Existing and future laws and regulations may impede our growth. Unfavorable regulations, laws, and decisions interpreting or applying those laws and regulations could diminish the demand for, or availability of, our web services and increase our cost of doing business.

9. We may be subject to risks related to government contracts

Our contracts with the Indian government are subject to regulations and other requirements as laid out in the government contract. We may be subject to audits and investigations relating to our government contracts, and any violations could result in various civil and criminal penalties and administrative sanctions, including termination of contract, refunding or suspending of payments, forfeiture of profits, payment of fines, and suspension or debarment from future government business. In addition, such contracts may provide for termination by the government at any time, without cause.

10. Our business could suffer if we are not successful in growing our investments and acquisitions.

We have in recent periods acquired and invested in companies, and we may acquire or invest or enter into joint ventures with additional companies. These transactions create risk of losing management focus on existing business, retaining key employees, potential impairment of tangible and intangible assets and goodwill,

additional operating losses, difficulties in implementing at companies we acquire the controls, procedures, policies appropriately for a public or a private company, potential unknown liabilities in companies we acquire or invest in, difficulty in integrating new company's accounting, financial reporting, management, information security, and the lack of control if such integration is delayed or not implemented.

As a result of future acquisitions or mergers, we might need to issue additional equity securities, spend our cash, or incur debt, contingent liabilities, or amortisation expenses related to intangible assets, any of which could reduce our profitability and harm our business. In addition, valuations supporting our acquisitions and strategic investments could change rapidly.

11. We may not be able to protect our Intellectual Property or may be accused of infringing intellectual property of third party

All our trademarks, domain names, copyrights and other intellectual property rights are material assets and are integral and critical to our business operations. We depend on a combination of copyright, trademark laws, non-competition and confidentiality agreements with our employees, contractors, merchants and third-party service providers to protect our logo, brand name, domain names, merchant and customer database and technology infrastructure including customised Infibeam Avenues Limited that are integral to our advanced technology platform. Some of our trademark and patent applications are currently pending and there can be no assurance that these applications will be successful and these trademarks would be registered in our name. Confidentiality agreements with our employees require them to keep confidential and waive any rights to any of our trade secrets, works of authorship, software developed and other technology infrastructure upgrades made by them during their employment with us. However, there can be no assurance that our data or proprietary technology will not be copied or otherwise misappropriated or abused by third parties. There may be irreparable damage to our business in the event that our intellectual property are infringed by competitors, in which case an award of damages may not be an adequate remedy.

Third parties may claim that we infringe on their intellectual property rights as we acquire new technology companies. We may be subject to claims and legal proceedings regarding infringement of intellectual property rights. Such claims even if they lack merit or not may result in significant financial and management bandwidth, including satisfying of indemnity if required.

12. Failure to deal effectively with fraud, fictitious transactions, and poor customer experiences would harm our business, our brand image and result in losses

In the event that merchants using our payments web services do not fulfil their obligations to consumers or a merchant's goods or services do not match the merchant's description, we may incur substantial losses as a result of claims from consumers. We seek to recover such losses from the merchant, but may not be able to recover in full if the merchant is unwilling or unable to pay. In addition, in the event of the bankruptcy or other business interruption of a merchant that sells goods or services in advance of the date of their delivery or use (e.g., airline, concert tickets and subscriptions), we could be liable to the buyers of such goods or services on payment cards used by customers to fund their payment.

We could also incur substantial losses from claims that the consumer did not authorise the purchase, from customer fraud, from erroneous transactions, and as a result of customers who have closed bank accounts or have insufficient funds in their bank accounts to satisfy payments. We have taken measures to detect and reduce the risk of fraud, but these measures need to be continually improved and may not be effective against fraud, particularly new and continually evolving forms of fraud. If these measures do not succeed, our business could be harmed.

13. We could be affected by changes to payment card networks or bank fees, rules, or practices could harm our business

We rely on banks or other payment processors to process transactions and pay fees for the services. From time to time, payment card networks have increased, and may increase in future, the interchange fees that they charge for each transaction that accesses their networks. Payment card networks have or may impose special fees for transactions that are executed through a many of our payment options, which

could impact us and significantly increase our costs. Our payment card processors may have the right to pass any increases in interchange fees on to us as well as increase their own fees for processing. Any changes in interchange fees could increase our operating costs and reduce our operating income.

14. We could face the risk of security breach and loss of data

We offer software as a service to clients and that we process, store, and transmit large amounts of data, failure to prevent any breach could expose us to potential liability and harm our business. We use third-party technology and systems for variety of reasons, including encryption, authentication, employee email, back office support and other functions. Although we have developed systems and processes to prevent data loss and other security breaches, such measures cannot provide absolute full proof security.

15. Reliance on information technology systems, networks and infrastructure, and internet penetration

Our business is technology driven, and we rely on information technology and networks and related infrastructure. As such, our business operations and quality of our service depend significantly on the efficient and uninterrupted operation and reliability of our information technology systems and networks and related infrastructure, both internal and external. We cannot guarantee an uninterrupted operation and reliability of these systems.

Internet penetration especially broadband services in India is limited and, though it has been increasing over the past few years, there can be no assurance that internet penetration in India will increase in the future as slowdowns or disruptions in upgrading efforts for infrastructure in India could reduce the rate of increase in the use of the internet. Further, any slowdown or negative deviation in the anticipated increase in internet penetration in India will affect our ability to attract and add new merchants and customers.

16. Proper functioning of payments solutions and platform is essential

The satisfactory performance, reliability and availability of our websites, our transaction-processing systems and our network infrastructure are critical to our success and

our ability to attract and retain customers and maintain adequate customer service levels. Our revenues depend on the volume of transactions we process and other service level agreements that we have in place. Any system interruptions caused by computer viruses, hacking or other attempts to harm our systems that result in the unavailability or slowdown of our website or reduced order fulfilment performance would reduce the volume of our services and the attractiveness of our offerings.

Our servers may also be vulnerable to computer viruses, physical or electronic break-ins and similar disruptions, which could lead to interruptions, delays, loss of data or the inability to complete a transaction. We may also experience interruptions caused by reasons beyond our control. There can be no assurance that such unexpected interruptions will not happen, and any such future occurrences could damage our reputation and result in a material decrease in our revenues.

17. A decline in the use of any payment option as a payment mechanism or adverse developments with respect to the payment processing industry in general could have a materially adverse effect on our business, financial condition and results of operations

If consumers do not continue to use the payment options as a payment mechanism for their transactions or if there is a change in the mix of payments between cash, alternative currencies and technologies, which is adverse to us, it could have a materially adverse effect on our business, financial condition and results of operations. Moreover, if there is an adverse development in the payments industry in general, such as new legislation or regulation that makes it more difficult for our clients to do business, our business, financial condition and results of operations may be adversely affected.

18. Our risk management framework to mitigate our risk may not be fully effective against all types of risks.

Our risk management framework seeks to mitigate risk and loss to us. We have established processes and procedures intended to identify, measure, monitor, manage and report our risks. However, as with any risk management framework, there are inherent limitations to our risk management strategies such that there could be risks that we cannot anticipate or identify. If

our risk management framework were to become ineffective, we could experience unexpected losses that could have a material adverse effect on our business, financial condition or results of operations.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

We have well-documented policies and procedures, which cover all financial and operational functions, thereby ensuring an adequate system of internal controls in place. These aid in providing a reasonable assurance regarding maintenance of proper accounting controls to ensure that financial reporting is reliable, operations are monitored, assets are protected from unauthorised use or losses and regulations are well complied with. As always, our processes and controls are in alignment with the best global practices.

Some significant features of the internal control systems are:

- At all locations of IAL, the Internal Auditor monitors and evaluates not only the efficacy and adequacy of existing internal control systems, but also their compliance with the operating systems, accounting procedures and policies. On the basis of the report prepared by the Internal Auditor, respective process owners carry out corrective actions, thereby strengthening the existing controls. Major audit observations and the respective corrective actions taken up are presented before the Board.
- As per the listing requirements, documentation of major business processes and testing thereof are conducted, which includes financial closing, computer controls and entity-level controls, as part of our compliance programmes. We are very strict with our security policy and update our IT systems on a periodic basis.
- As part of the established practices for all operating and service functions, detailed business plans for each segment, investment strategies and year-on-year reviews, annual financial and operating plans and monthly monitoring are carried out.
- An independent, well-established and multi-disciplinary internal audit team operates in line with the best practices of governance. It reviews and reports to the management and the Audit Committee on compliance with internal controls and the efficiency and effectiveness of operations as well as the key process risks. The scope and authority of the Internal Audit Division is derived

from the Internal Audit Charter that is duly approved by the Audit Committee as well as the anti-fraud programmes, including whistle blower mechanisms that are operative across IAL.

Throughout the organisation, the Board takes responsibility for the overall process of risk management. As per IAL's objectives, our business units and corporate functions address risks via an institutionalised approach through an Enterprise Risk Management programme, after which an internal audit is carried out. The Risk Management Committee reviews business risk areas covering operational, financial, strategic and regulatory risks. The business risk is managed through cross-functional involvement and communication across businesses, the results of which are presented to the senior management.

During FY 2022-23, we conducted an assessment of the effectiveness of the internal control over financial reporting and have determined that our internal control over financial reporting as on March 31, 2023 is effective.

HUMAN RESOURCES

Employees are the ultimate force behind our Company's success. We consider it our responsibility to provide our people a favourable, secured and supporting work environment. At the same time, we have in place a well-defined Code of Conduct and ensure that ethical business practices are followed at all levels of the organisation. To maintain a constant connect between the organisational goals and employee performance, we have put in place a fair and objective performance management system. Our appraisal mechanisms help in identifying the best performing employees and rewarding them accordingly in terms of the best-in-class compensation packages. To sharpen the existing skills and for the overall development of our employees, we conduct training programmes from time to time. This also helps us in identifying the loopholes in our existing talent and the taking necessary steps to address them in the best manner possible. It is because of this consistent involvement with our employees that we have been able to maintain our position as one of the most sought-after employers. As on March 31, 2023, we had an employee strength of 713 people.

11. In case the Company is unable to pay dividend to any Member directly in their bank account through Electronic Clearing Services or any other means due to non-registration of Electronic Bank Mandate, the Company shall dispatch the dividend warrants to such member.
12. Members may note that the Income-tax Act, 1961, ("the IT Act") as amended by the Finance Act, 2020, mandates that dividends paid or distributed by a company after April 1, 2020 shall be taxable in the hands of members. The Company shall therefore be required to deduct tax at source ("TDS") at the time of making the payment of final dividend. In order to enable us to determine the appropriate TDS rate as applicable, members are requested to submit relevant documents, as specified in the below paragraphs, in accordance with the provisions of the IT Act.

For resident shareholders, taxes shall be deducted at source under Section 194 of the IT Act as follows:

Members having valid Permanent Account Number ("PAN")	10% or as notified by the Government of India
Members not having PAN / valid PAN	20% or as notified by the Government of India

However, no tax shall be deducted on the dividend payable to a resident individual if the total dividend to be received by them during fiscal year 2023 does not exceed ₹ 5,000 and also in cases where members provide Form 15G / Form 15H (Form 15H is applicable to individuals aged 60 years or more) subject to conditions specified in the IT Act. Resident shareholders

may also submit any other document as prescribed under the IT Act to claim a lower / nil withholding tax. PAN is mandatory for members providing Form 15G / 15H or any other document as mentioned above.

For non-resident shareholders, taxes are required to be withheld in accordance with the provisions of Section 195 and other applicable sections of the IT Act, at the rates in force. The withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) or as notified by the Government of India on the amount of dividend payable. However, as per Section 90 of the IT Act, non-resident shareholders have the option to be governed by the provisions of the Double Tax Avoidance Agreement ("DTAA"), read with Multilateral Instrument ("MLI") between India and the country of tax residence of the member, if they are more beneficial to them. For this purpose, i.e. to avail the benefits under Purpose Fuels Growth 61 the DTAA read with MLI, non-resident shareholders will have to provide the following:

- Copy of the PAN card allotted by the Indian income tax authorities duly attested by the member or details as prescribed under rule 37BC of Income-tax Rules, 1962
- Copy of Tax Residency Certificate obtained from the revenue authorities of the country of tax residence, duly attested by member Self-declaration in Form 10F
- Self-declaration by the member of having no permanent establishment in India in accordance with the applicable tax treaty
- Self-declaration of beneficial ownership by the non-resident shareholder
- Any other documents as prescribed under the IT Act for lower withholding of taxes if applicable, duly attested by the member

In case of Foreign Institutional Investors / Foreign Portfolio Investors, tax will be deducted under Section 196D of the IT Act @ 20% (plus applicable surcharge and cess) or the rate provided in relevant DTAA, read with MLI, whichever is more beneficial, subject to the submission of the above documents.

Shareholders who are exempted from TDS provisions through any circular or notification may provide documentary evidence in relation to the same, to enable the Company in applying the appropriate TDS on Dividend payment to such shareholder.

The aforementioned documents are available on the website of the Company i.e. <https://www.ia.ooo/advice-to-shareholders> and are required to be emailed at infibeamdividend@ia.ooo on or before September 19, 2023. This Explanatory Statement may also be regarded as a disclosure under applicable provisions of the Listing Regulations.

The Board recommends the resolution in Item No. 6 of the notice for approval of the shareholders through Special Resolution.

Item No. 7:

Pursuant to the provisions of Section 185 of the Companies Act, 2013 ("the Act"), a company may advance any loan, including any loan represented by a book debt, to any person or give any guarantee or provide any security in connection with any loan taken / to be taken by any such person, in whom any of the Directors of the Company is interested, subject to the condition that approval of the shareholders of the Company is obtained by way of passing a Special Resolution, requisite disclosures are made in the Explanatory Statement and the loans are utilised by the borrowing companies for its principal business activities.

In view of that the Company's Subsidiary(ies)/Associates/ specified entities as defined under Section 185 of the Companies Act, 2013 explore various options to raise funds through loan/issuance of debentures/bonds etc. which may be backed by corporate guarantee of the Company or the Company may have to render support for the business requirements of its Subsidiary(ies)/Associate/specified entities.

Hence, the Board seek approval of the Members pursuant to the provisions of Section 185 of the Act to advance any loan, including any loan represented by book debt, or provide financial assistance or to give guarantee or provide any security in connection with any loans/debentures/bonds etc. raised by the Entities for the capital expenditure of the projects and/or working capital requirements or other business expenses, as may be required from time to time for the expansion of its business activities and other matters connected and incidental thereon for their principal business activities.

The Board of Directors of the Company (or any committee thereof) would carefully evaluate proposal(s) to provide such loan(s) (including to provide any guarantee/security in connection with the loan) through deployment of funds out of internal resources/ accruals and/or any other appropriate sources, from time to time, only for principal business activities (including the matter connected thereto) of the subsidiaries of the Company or such other entity/person, in which any of the Director of the Company is interested or deemed to be interested, excluding loan/guarantee/ security

exempted under the provisions of the Companies Act, in one or more tranches, outstanding at any point of time and the same will be in the best interest of the Company.

The Company is on a growth path through operations by itself and through its subsidiaries. In order to enable the Company and its subsidiary to channelize its resources for expansion and explore areas for future Business opportunities and growth plans for the benefit of the Company, the Board of Directors proposes to grant loans, in one or more tranches, to its subsidiaries, namely, Infibeam Digital Entertainment Private Limited for an amount upto Rs. 100.00 Million and, to Instant Global Paytech Private Limited for an amount upto Rs. 1,000.00 Million and to So Hum Bharat Digital Payments Private Limited for an amount upto Rs. 50.00 Million on such terms and conditions as may be mutually agreed upon and for their principal business activities, upto next Annual General Meeting.

The Board of Directors of the Company at its Meeting held on August 08, 2023 decided to seek prior approval of the Members of the Company to grant loans to Infibeam Digital Entertainment Private Limited, Instant Global Paytech Private Limited and So Hum Bharat Digital Payments Private Limited, the Subsidiary companies.

None of the Directors, KMPs or any of their relatives is, directly or indirectly, concerned or interested in the proposed resolution except to the extent of their shareholding, Common Directorship's, if any, in the aforesaid Companies.

The Board of Directors of the Company recommend the Resolution as set out in item No. 7 of the accompanying Notice for the approval of the Members of the Company by way of Special Resolution.

By the Order of the Board,
For Infibeam Avenues Limited

COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Infibeam Avenues Limited's ("Infibeam" or "the Company") philosophy on Corporate Governance encompasses adherence to the highest levels of transparency, accountability and fairness, in all areas of its operations and in all interactions with all its stakeholders which reflects our value system encompassing our culture and policies. The Company believes that Corporate Governance is an integral part of the philosophy of the Company in its pursuit of excellence, growth and value creation. The Company recognizes that good governance is a continuing exercise and reiterates its commitment to pursue highest standards of Corporate Governance in the overall interest of all its stakeholders. The Company firmly believes, Corporate Governance is not just a destination, but a journey to constantly improve sustainable value creation. The Company's philosophy on Corporate Governance oversees business strategies and ensures fiscal accountability, ethical corporate behaviour and fairness to all stakeholders comprising regulators, employees, customers, vendors, investors and the society at large. Strong corporate governance founded on values is the bedrock of the sustained performance at the Company and fuels the Company's vision to achieve the respect of stakeholders. The Company is conscious of the fact that the success of a corporation is a reflection of the professionalism, conduct and ethical values of its management and employees. In addition to compliance with regulatory requirements, the Company endeavours to ensure that highest standards of ethical and responsible conduct are met throughout the organisation.

The Company's governance framework is based on the following principles:

- Follow the spirit of the law and not just the letter of the law, Corporate Governance standards should go beyond the law;
- Appropriate composition and size of the Board, with each member bringing in expertise in their respective domains;

- Availability of information to the Members of the Board and Board Committees to enable them to discharge their fiduciary duties;
- Timely disclosure of material operational and financial information to the stakeholders;
- Systems and processes in place for internal control;
- Proper business conduct by the Board, Senior Management and Employees;
- Embracing a trusteeship model in which the management is the trustee of the Shareholders' capital;
- Making a clear distinction between personal convenience and corporate resources.

The Company has adopted a Code of Conduct for its employees including the Directors and the Key Managerial Personnel(s) ("KMPS") and Senior Management. 1. Certificate confirming due compliance of share transfer formalities by the Company pursuant to Regulation 40(9) of the SEBI Listing Regulations for year ended March 31, 2023; and
2. Certificate regarding Reconciliation of the Share Capital audit of the Company on quarterly basis.

(xvii) Dematerialisation of Shares and Liquidity:

Equity shares of the Company can be traded only in electronic mode by all the investors. The Company has entered into an agreement and established connectivity with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL).

99.92% of the Equity Shares have been dematerialised as on March 31, 2023. Under the Depository System, the International Securities Identification Number (ISIN) allotted to the Company's shares is INE483S01020.

The Company's shares are frequently traded on the 'BSE Limited' and the 'National Stock Exchange of India Limited'.

The shareholders holding shares in physical form are requested to dematerialize their shares for safeguarding their holdings and managing the same hassle free. Shareholders are accordingly requested to get in touch with any of the Depository Participant(s) registered with SEBI to open a Demat account.

Transactions involving issue of share certificates, namely, issuance of duplicate share certificates, split, rematerialisation, consolidation and renewal of share certificates etc. should be addressed to RTA of the Company at the address given above and the same are approved by the Stakeholders Relationship Committee.

Pursuant to SEBI circular dated January 25, 2022, securities of the Company shall be issued in dematerialized form only while processing service requests in relation to issue of duplicate securities certificate, renewal / exchange of securities certificate, endorsement, sub-division / splitting of securities certificate, consolidation of securities certificates/folios, transmission and transposition.

In terms of the said circular the necessary forms for processing the above requests are available on the website of the Company i.e. www.ia.ooo. Shareholders holding shares in physical form are advised to avail the facility of dematerialisation. Shareholders may communicate with Link Intime India Private Limited, the Company's Registrars & Share Transfer Agent quoting their folio number or Depository Participant ID and Client ID number, for any queries relating to their securities. Members holding Equity Shares of the Company in physical form are requested to kindly get their Equity Shares converted into demat/ electronic form to get inherent benefits of dematerialisation and also considering that physical transfer of equity shares/ issuance of equity shares in physical form have been disallowed by SEBI.

The prescribed process for dealing with the above requests has been advised to the shareholders holding shares in physical form vide our separate communication on this. The shareholders holding shares in physical form are requested to refer to the same. In terms of the circular, the Registrar and Share Transfer Agents are required to issue a letter of confirmation upon processing of investor requests in lieu of physical share certificates and the same is required to be dematerialized by the shareholder or claimant within 120 days of the issue of letter of confirmation. In case the shareholders or claimant fails to submit a demat request within the aforesaid 120 days, the shares would be credited to a Suspense Escrow Demat Account opened by the Company. The Company shall issue shares from Suspense Escrow Demat Account as and when the shareholder or claimant approaches the Company.

In view of the above, we urge the shareholders holding shares in physical form are requested to dematerialize their shares for safeguarding their holdings and managing the same hassle free. Shareholders are accordingly requested to get in touch with any of the Depository Participant(s) registered with SEBI to open a Demat account.

The said measure of SEBI is aimed at curbing fraud and manipulation risk in physical transfer of securities by unscrupulous entities. Transfer of securities in demat form will improve ease, convenience and safety of transactions for investors.

(xviii) Commodity price risk or foreign exchange risk and hedging activities:

The Company manages foreign exchange risk and hedges to the extent considered necessary as and when required. The Company does not deal in commodities and hence the disclosure pursuant to SEBI Circular dated November 15, 2018 and any other circular is not required to be given.

		Opportunity	Effective corporate governance, through transparency, accountability, and ethics, boosts investor confidence, attracts capital, and fosters lasting, sustainable growth.		Positive

SL No	Material Issue Identified	Risk / Opportunity	Rational for identifying risk or opportunity	In case of risk approach to adapt or mitigate	Financial implication of risk or opportunity
2.	Talent management	Risk	Failing to effectively nurture and expand the company's talent pool can lead to increased expenses for talent recruitment and training. Additionally, it can hinder revenue growth and innovation within the business.	The company has invested in upskilling programs to empower employees with modern tech skills. It's dedicated to ensuring a secure, satisfying, and enriching work environment for its staff.	Negative
		Opportunity	Securing and retaining employees over the long term substantially cuts down on talent expenses and positions the company for innovation, leveraging the dedication and skill of loyal team members.	The company has established employee-friendly policies, encouraging staff to voice well-being concerns. Such an inclusive environment drives innovation and nurtures the creation of unique concepts.	Positive
3.	Cybersecurity and Data Privacy	Risk	Insufficient handling of data security threats, encompassing prevention, detection, and resolution, can impact customer acquisition and retention, leading to reduced market share and decreased demand.	To stay ahead of emerging threats and safeguard operations and data, the company continually invests in the latest tools and protocols. Our dedicated data privacy/security team enforces a comprehensive framework, including mandatory privacy training for employees.	Negative
		Opportunity	Elevated customer confidence will stem from being recognized as an innovation leader in information security, implementing state-of-the-art cybersecurity standards throughout all operations.	The team stays current with cybersecurity advancements to uphold effective practices and enhance compliance measures.	Positive
4.	Employee wellness	Risk	Mismanaged employee benefits can lead to diminished morale, increased turnover, and a negative corporate image.	The company has diligently prioritized employee well-being and work-life balance. This includes organizing health camps, training sessions, and activities for physical and mental well-being. An array of benefits, such as medical insurance, creche facilities, and parental/maternity leave, are provided to ensure the well-being of employees.	Negative
		Opportunity	Thoughtfully crafted employee benefits heighten job satisfaction, draw top-tier talent, enhance employee retention, increase productivity, and uplift morale.		Positive

7. Project related to reducing Green House Gas emission? If yes, details.

Infibeam's core business is centered around offering digital solutions for eCommerce. Embracing online software platforms and digital payment solutions offers a multitude of benefits that extend beyond convenience and efficiency, significantly contributing to environmental well-being. By enabling remote access and reducing the need for physical infrastructure, these technologies directly translate to a lowered demand for energy-intensive resources, thereby minimizing Greenhouse Gas emissions and reducing carbon footprints. This transition to digital platforms eliminates the necessity for excessive paper usage and unnecessary transportation, leading to reduced deforestation, energy consumption, and pollution associated with traditional business operations. Ultimately, the adoption of online software and digital payments represents a proactive step towards a greener future, aligning businesses with sustainable practices and reinforcing their commitment to ecological preservation.

The Company's headquarter is also located in a Green Building, at GIFT City in Gandhinagar Gujarat. GIFT City was built to be urban and sustainable. The Company's headquarter in GIFT city Green Building is awarded a Green Cities 'Gold' certification from the Indian Green Building Council (IGBC).

INDEPENDENT AUDITOR'S REPORT

To the Members of **Infibeam Avenues Limited**

Report on the Audit of the Standalone IND AS Financial Statements

Opinion

We have audited the accompanying standalone IND AS financial statements of Infibeam Avenues Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone IND AS financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone IND AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone IND AS financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone IND AS financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone IND AS financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone IND AS financial statements

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone IND AS financial statements for the year ended March 31, 2023. These matters were addressed in the context of our audit of the standalone IND AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr No	Key Audit Matter	Auditors Response
1.	Goodwill Impairment	Principal Audit Procedures
	<p>Included on the balance sheet is an intangible assets balance of ₹ 18,832.23 million as on March 31, 2023 which relates to goodwill of ₹ 16,124.18 million which arose mainly from past acquisition and other intangible assets like Computer Software, IT Platform, Trademark and Customer relationship of ₹ 2,708.05 million are classified as other Intangible Assets.</p> <p>The Company is required to perform impairment assessments of goodwill annually. For intangible assets with useful lives, the Company is required to review these for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable, and at least annually, review whether there is any change in their expected useful lives.</p> <p>For the purpose of performing impairment assessments, all intangible assets including goodwill have been allocated to groups of cash generating units ("CGUs"). The recoverable amount of the underlying CGUs is supported by value-in-use calculations which are based on future discounted cash flows. Management concluded that the intangible assets including goodwill were not impaired as of March 31, 2023.</p> <p>The above assessment on annual impairment of goodwill having indefinite useful life is considered as significant accounting judgement and estimate to the standalone IND AS financial statements and a key audit matter because the assumptions on which the tests are based are highly judgmental and are affected by future market and economic conditions which are inherently uncertain, and because of the materiality of the balances to the standalone IND AS financial statements as a whole.</p> <p>Kindly refer Note No. 6 to the standalone IND AS financial statements.</p>	<p>Focusing on Infibeam Avenues Ltd business, we understood, evaluated and validated management's key controls over the impairment assessment process. The company had obtained a valuation report from external independent valuer. On observing the same, following audit procedures were adopted:</p> <ul style="list-style-type: none"> Evaluating the methodical and mathematical accuracy of the model used for the impairment testing, the appropriateness of the assumptions, and the methodology used to prepare its cash flow forecasts. gaining an understanding and assessing the reasonableness of business plans by comparing them to prior year's assumptions; comparing the current years actual results included in the model to consider whether forecasts including assumptions that, with hindsight, have been appropriate. discussing the potential changes in key drivers as compared to previous year / actual performance with management in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable. recalculating the value in use calculations challenging the robustness of the key assumptions used to determine the value in use, including the allocation of goodwill to the adequate CGUs, cash flow forecasts, long-term growth rates and the discount rates based on our understanding of the commercial prospects of the related CGUs and by comparing them with publicly available data, where possible; <p>We also considered the appropriateness of disclosures in the standalone IND AS financial statements and conclude that our audit procedures did not lead to any reservations regarding the goodwill impairment test.</p>

Information Other than the Standalone IND AS financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone IND AS financial statements and our report thereon.

Our opinion on the standalone IND AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone IND AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone IND AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone IND AS financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone IND AS financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records relevant to the preparation and presentation of the standalone IND AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone IND AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone IND AS financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone IND AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone IND AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone IND AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone IND AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause

the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone IND AS financial statements, including the disclosures, and whether the standalone IND AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone IND AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone IND AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone IND AS financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone IND AS financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the **"Annexure A"** a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

 - iv.(a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note No. 36 to the standalone IND AS financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
 - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
 - (b) The management has represented, that, to the best of its knowledge and belief, as disclosed in Note No. 36 to the standalone IND AS financial statements, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:
 - directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or
 - provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries; and
 - (c) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under subclause (iv) (a) and (iv) (b) contain any material mis-statement.
 - v. As stated in Note 10.8 to the standalone IND AS financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approvals of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

The Company has not provided any guarantee or security to any other entity during the year.

(b) The investments made and the terms and conditions of the grant of all the above-mentioned loans during the year are, in our opinion, not prejudicial to the interest of the Company.

(c) In the case of loans given, the loans given are repayable on demand and as such we are not able to comment whether the repayments or receipts have been regular.

(d) As informed to us there is no overdue amount for more than ninety days in respect of loans given.

(e) There is no loan given falling due during the year which has been renewed or extended or fresh loans given to settle the overdues of existing loans given to the same party.

(f) The loans and advances granted by the Company are repayable on demand. The aggregate amount of such loans and advances to Promoters is Nil and to other related parties as defined in clause (76) of section 2 of the Companies Act, 2013 Rs. 140.07 million which is equal to 18.4% of the total loans and advances granted.

iv. The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.

v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable

vi. To the best of our knowledge and as explained, the

Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the services of the Company. Accordingly, paragraph 3(vi) of the Order is not applicable.

vii. In respect of statutory dues;

- a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, duty of Custom, and other material statutory dues applicable to it with the appropriate authorities. There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, duty of Custom, and other material statutory dues in arrears as at March 31, 2023 for a period of more than six months from the date they became payable.
- b) To the best of our knowledge, according to the information and explanations given by the management, no statutory dues referred to in a) above have not been paid on account of any dispute.

viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

- ix. (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (b) The Company has not been declared a wilful defaulter by any bank or financial institution or government or any government authority.
- (c) There were no term loans raised during the year.
- (d) On an overall examination of the financial statements of the Company, funds raised on short term basis have, prima facie, not been used during the year for long-term purposes by the Company
- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- (f) The Company has not raised any loans during the year on the pledge of securities held in its subsidiaries and hence reporting on clause 3(ix)(f) of the Order is not applicable.
- x.(a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- (b) During the year, the Company has made private placement of shares during the year and the requirements of section 42 of the Act have been complied with. Funds raised have been used for the purposes for which the funds were raised.

xi. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.

(c) Based on the information provided by the company, there were no whistle blower complaints received by the Company during the year (and upto the date of this report). Accordingly, clause 3(xi)(c) of the Order is not applicable.

xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.

xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone IND AS financial statements as required by the applicable accounting standards.

xiv.(a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an adequate internal audit system commensurate with the size and the nature of its business.

(b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

xv. In our opinion, during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

xvi.(a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.

(b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.

xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors of the Company during the year.

xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the

assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- xx. In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of Section 135 of the Companies Act, 2013 pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

- xxi. The reporting under clause (xxi) is not applicable in respect of audit of standalone IND AS financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.

referred in para 2 of the Independent Auditors Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone IND AS financial statements of Infibeam Avenues Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone IND AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone IND AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone IND AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone IND AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with

reference to these standalone IND AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone IND AS financial statements.

Meaning of Internal Financial Controls over Financial Reporting with Reference to these standalone IND AS financial statements

A company's internal financial control over financial reporting with reference to these standalone IND AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone IND AS financial statements includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with Reference to these standalone IND AS financial statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone IND AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with

reference to these standalone IND AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone IND AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone IND AS financial statements and such internal financial controls over financial reporting with reference to these standalone IND AS financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financials Statement

for the year ended March 31, 2023

1. Corporate Information

Infibeam Avenues Limited ('the Company') was incorporated on June 30, 2010 under the Companies Act, 1956. The Company is primarily engaged in business of software development services, maintenance, web development, payment gateway services, e-commerce and other ancillary services.

The Company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company's shares are listed on the BSE Limited and National Stock Exchange of India Limited in India. The registered office of the company is located at 28th Floor, GIFT Two Building, Block No. 56, Road-5C, Zone-5, GIFT CITY, Gandhinagar, Taluka & District - Gandhinagar – 382 355.

The financial statements were authorised for issue in accordance with a resolution of the directors on May 25, 2023.

2. Statement of compliance

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules as amended from time to time.

Basis of preparation

These standalone financial statements have been prepared on historical cost basis except for certain financial instruments and defined benefit plans which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flows has been prepared under indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The

cash flows from operating, investing and financing activities of the Company are segregated.

The financial statements are presented in Indian Rupee ('INR') which is also the Company's functional currency and all values are rounded to the nearest millions, except when otherwise indicated.

3. Critical accounting estimates

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

3.1. Estimates and assumption

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

3.2. Defined benefit plans

The cost of the defined benefit plans and the present value of the obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. Discount rate has been determined by reference to market yields on the government bonds as at the balance sheet date. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases are based on expected future inflation rates for the country.

Further details about defined benefit obligations are provided in Note 25.

3.3. Share-based payments

The Company initially measures the cost of equity-settled transactions with employees using a black

Notes to the Financials Statement

for the year ended March 31, 2023

scholar model to determine the fair value of the liability incurred. Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For equity-settled share-based payment transactions, the liability needs to be measured at the time of grant.

The Company has also approved the grant of Employee Stock Appreciation Rights (SARs) to the eligible employees of the Company. Each SAR shall confer the right to the eligible employee to receive appreciation (cash settled / equity settled) with respect to the underlying Equity Share on the entitled shares after it has been exercised in accordance with terms of the Scheme.

The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 28.

3.4. Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

3.5. Intangible asset including intangible asset under development

Intangible development costs are capitalised as and when technical and commercial feasibility of the asset is demonstrated, future economic benefits are probable. The costs which can be capitalized include the salary and ESOP cost of employees that are directly attributable to development of the asset for its intended use. Research and maintenance costs are expensed as incurred. Intangible assets are tested for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Refer Note 4.6 for the estimated useful life of Intangible assets. The carrying value of Intangible assets has been disclosed in Note 6.

3.6. Property, plant and equipment

Refer Note 4.5 for the estimated useful life of Property, plant and equipment. The carrying value of Property, plant and equipment has been disclosed in Note 5.

3.7. Revenue recognition

Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those services.

3.8. Investments

Investment in subsidiaries and associates is carried at cost in the standalone financial statements.

4. Summary of Significant Accounting Policies

The following are the significant accounting policies applied by the company in preparing its financial statements:

4.1. Current versus non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

Notes to the Financials Statement

for the year ended March 31, 2023

4.2. Business combinations and goodwill

Business combinations are accounted for using the acquisition method prescribed under IND AS. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value.

Acquisition related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and any previous interest held, over the net identifiable assets acquired and liabilities assumed.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed off, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

4.3. Foreign currencies

The company's financial statements are presented in INR, which is also the company's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rate at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or statement of profit or loss are also recognised in OCI or profit or loss, respectively).

Notes to the Financials Statement

for the year ended March 31, 2023

4.4. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability
- Or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, as described below, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Significant accounting judgements, estimates and assumptions
- Quantitative disclosures of fair value measurement hierarchy
- Financial instruments (including those carried at amortised cost)

4.5. Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. The cost of assets acquired in a business combination is their fair value at the date of acquisition. When significant parts of Property, plant and equipment are required to be replaced at intervals, the Company recognises such parts as individual assets with specific useful lives and depreciates them accordingly. All repair and maintenance costs are recognised in statement of profit or loss as incurred.

Capital work-in-progress comprises cost of fixed assets that are not yet installed and ready for their intended use at the balance sheet date.

Depreciation is calculated on a written down value basis over the estimated useful lives of the assets as follows:

- Building – 60 years
- Leasehold Improvements - 10 years
- Plant and equipment - 5 to 10 years
- Furniture & Fixtures - 10 years
- Vehicles - 8 years
- Computer & Peripherals - 3 to 6 years

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated

Notes to the Financials Statement

for the year ended March 31, 2023

as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

4.6. Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Cost include acquisition and other incidental cost related to acquiring the intangible asset.

Research costs are expensed as incurred. Intangible development costs are capitalised as and when technical and commercial feasibility of the asset is demonstrated, future economic benefits are probable. The costs which can be capitalized include the salary and ESOP cost of employees that are directly attributable to development of the asset for its intended use.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Amortisation

Period of Amortisation of Intangibles is calculated as follows:

- Computer software acquired on Amalgamation - 6 years
- Computer software acquired - 10 years (w.e.f. April 01, 2020)
- Trademark acquired on Amalgamation - 25 years (w.e.f. April 01, 2020)

- IT Platform acquired on Amalgamation - 5 years (w.e.f. April 01, 2020)
- Customer Relationship acquired on Amalgamation - 25 years (w.e.f. April 01, 2020)
- Internally generated Computer Software - 5 years (w.e.f. April 01, 2020)

Intangible assets under development

Expenditure incurred on acquisition /construction of intangible assets which are not ready for their intended use at balance sheet date are disclosed under Intangible assets under development. During the period of development, the asset is tested for impairment annually.

4.7. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company's lease asset classes comprise of lease for building and for vehicles. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets as below:

i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes

Notes to the Financials Statement

for the year ended March 31, 2023

the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. For lease of building right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the underlying assets (i.e. 30 and 60 years) and for lease of vehicles Right of- use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the underlying assets (i.e. 8 years) If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

ii) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The Company's lease liabilities are included in other

current and non-current financial liabilities.

(iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term. "Lease liability" and "Right of Use" asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Company as a lessor

Leases for which the Company is a lessor is classified as finance or operating lease. Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms.

4.8. Government Grants

Government grants are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to expense item is recognised as income on a systematic basis over the period that the related costs, for which it is intended to compensate, are expensed.

Government grants related to assets (i.e. those whose primary condition is that an entity qualifying for them should purchase, construct or otherwise acquire long-term assets), including non-monetary grants at fair value, are presented in the balance sheet by deducting the grant in arriving at the carrying amount of the asset, in which case the grant is recognised in profit or loss as a reduction of depreciation expense.

4.9. Non-current assets held for sale and discontinued operations

Non-current assets and Disposal Group are classified as held for sale if their carrying amount is intended to be recovered principally through sale rather than through continuing use. The condition for classification of held for sale is met when the non-current asset or

Notes to the Financials Statement

for the year ended March 31, 2023

the Disposal Group is available for immediate sale and the same is highly probable of being completed within one year from the date of classification as held for sale. Non-current assets and Disposal Group held for sale are measured at the lower of carrying amount and fair value less cost to sell. Non-current assets and Disposal Group that ceases to be classified as held for sale shall be measured at the lower of carrying amount before the non-current asset and Disposal Group was classified as held for sale adjusted for any depreciation/amortization and its recoverable amount at the date when the Disposal Group no longer meets the "Held for sale" criteria.

A discontinued operation is a component of the undertaking that has been disposed off or is classified as held for sale and

- represents a separate line of business or graphical area of operations and;
- is a part of a single coordinated plan to dispose off such a line of business or area of operations.

The results of discontinued operations are presented separately in the Standalone Statement of Profit and Loss.

4.10. Impairment of non-financial assets

Non-financial assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generated unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

Goodwill is tested for impairment annually and when

circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets with indefinite useful lives are tested for impairment annually at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

4.11. Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

4.12. Revenue Recognition

Rendering of services

Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those services.

Revenue from payment gateway services is recognised on settlement of transactions measured by value of transactions processed as per the rates and terms agreed between parties.

Revenue from Web Services is recognised upfront at the point in time when the service is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises, these service is recognised proportionally over the period.

Registry Services revenues primarily arise from fixed fees charged to registrars for the initial registration or renewal of .ooo domain names. Revenues from the initial registration or renewal of domain names are deferred and recognized rateably over the registration term, generally one year and up to ten years. Fees for renewals and advance extensions to the existing term are deferred until the new incremental period commences. These fees are then recognized rateably over the renewal term.

Revenue is measured based on the consideration specified in a contract with the customer and excludes amounts collected on behalf of customers.

Notes to the Financials Statement

for the year ended March 31, 2023

The Company presents revenue net of discounts and collection charges. Revenue also excludes taxes collected from customers.

Revenue from subsidiaries is recognised based on transaction price which is at arm's length.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Excess billing over revenue ("contract liability") is recognised when there is billing in excess of revenues.

In accordance with Ind AS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by offering and geography.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date as per contract.

Interest income

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not

consider the expected credit losses. Interest income is included in other income in the statement of profit or loss.

Rental income

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in other income in the statement of profit or loss due to its nature.

Export incentives

Export incentives are accounted on accrual basis based on services rendered.

4.13. Financial instruments – initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial assets

(i) Initial recognition and measurement.

All financial assets, except investment in subsidiaries and joint ventures, are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial assets.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)
- Equity instruments measured at fair value through statement of profit and loss (FVTPL)

• Debt instruments at amortised cost:

A debt instrument is measured at amortised cost if both the following conditions are met:

- the asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

Notes to the Financials Statement

for the year ended March 31, 2023

- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

- **Debt instruments at fair value through other comprehensive income (FVTOCI)**

A debt instrument is measured at fair value through other comprehensive income if both of the following criteria are met:

- the objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- the asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, interest income, impairment losses & reversals and foreign exchange gain or loss are recognised in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

- **Debt instruments at fair value through profit or loss (FVTPL)**

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or fair value through other comprehensive income criteria, as at fair value

through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of profit and loss.

- **Equity instruments:**

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

- **Investment in subsidiaries and associates:**

Investment in subsidiaries and associates is carried at cost in the standalone financial statements.

(iii) Derecognition of financial assets

A financial asset (or where applicable a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material

Notes to the Financials Statement

for the year ended March 31, 2023

delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

(iv) Impairment of financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

b) Financial Liabilities

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings.

(ii) Subsequent measurement of financial liabilities

The measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit and loss.

- **Loans and Borrowings**

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings.

Notes to the Financials Statement

for the year ended March 31, 2023

(iii) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

c) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.14. Cash and cash equivalent

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

4.15. Treasury shares

The Company has created an Employee Benefit Trust (EBT) for providing share-based payment to its employees. The Company uses EBT as a vehicle for distributing shares to employees under the employee remuneration schemes. The EBT buys shares of the company from the market, for giving shares to employees. The Company treats EBT as its extension and shares held by EBT are treated as treasury shares.

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

4.16. Taxes

Tax expense comprises of current income tax and deferred tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside Statement of profit and loss is recognised outside Statement of profit and loss (either in other comprehensive income or equity). Current tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination

Notes to the Financials Statement

for the year ended March 31, 2023

and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;

- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside Statement of profit and loss is recognised outside Statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

4.17. Retirement and other employee benefits

a) Short Term Employee Benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the year.

b) Post-Employment Benefits

(i) Defined benefit plan

Gratuity benefit scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet reduced by the fair value of any plan assets. The discount rate used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

The Company has not invested in any fund for meeting liability.

Notes to the Financials Statement

for the year ended March 31, 2023

4.18. Share-based payments

Employees of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense. No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

Employee Stock Appreciation Rights (SAR)

The company has formed 'Infibeam Employee Welfare Trust' (IEW trust) for implementation of the schemes that are notified or may be notified from time to time by the Company under the plan, providing share based payment to its employees. IEW trust purchases Company's shares out of funds provided by the Company. Accordingly, the Company has approved the grant of Employee Stock Appreciation Rights (SARs) to the eligible employees of the Company. Each SAR shall confer the right to the eligible employee to receive appreciation (cash settled / equity settled) with respect to the underlying Equity Share on the entitled shares after it has been exercised in accordance with terms of the Scheme.

The Company follows the fair value method to account for its Employee Stock Appreciation Rights (SARs) using an appropriate valuation model. Compensation cost is measured by the excess, if any, of the market price of the underlying stock over the exercise price as determined under the option plan. The market price is the closing price on the stock exchange where there is

highest trading volume on the working day immediately preceding the date of grant. Compensation cost, if any, is amortised over the vesting period.

4.19. Earnings per share

Basic EPS amounts are calculated by dividing the profit or loss for the year attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit or loss attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

4.20. Segment reporting

Based on "Management Approach" as defined in Ind AS 108 -Operating Segments, the Chief Operating Decision Maker evaluates the Company's performance and allocates the resources based on an analysis of various performance indicators by business segments. Unallocable items includes general corporate income and expense items which are not allocated to any business segment.

Segment policies:

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

4.21. Dividend distribution

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

4.22. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of

Notes to the Financials Statement

for the year ended March 31, 2023

a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingencies

Provision in respect of contingencies relating to claims, litigation, assessment, fines, penalties etc. are recognised when it is probable that a liability has been incurred and the amount can be estimated reliably.

Contingent liabilities and contingent assets:

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

4.23. Standards issued but not yet effective

Ministry of Corporate Affairs (MCA) notified Companies (Indian Accounting Standards) Amendment Rules, 2023 vide Notification dated 31 March 2023. Following amendments and annual improvements to Ind AS are applicable from 1 April 2023.

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

The Company does not expect the above amendments / improvements to have any significant impact on its standalone financial statements.

Goodwill arising on Amalgamation

Goodwill includes goodwill arising on amalgamation of Avenues (India) Private Limited.

Goodwill is tested for impairment on annual basis and whenever there is an indication that the recoverable amount is less than its carrying amount based on a number of factors including business plan, operating results, future cash flows and economic conditions. The recoverable amount is determined based on higher of value in use and fair value less cost to sell.

The Company uses discounted cash flows method to determine the recoverable amount. These discounted cash flow calculations use five-year projections that are based on financial forecasts. Cash flow projections take into account past experience and represent managements's best estimate about future developments. Management determined budgeted gross margin based on past performance and its expectations of market development. The calculations performed indicate that there is no impairment of Goodwill of the company.

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

After one year but not more than five years	43.52	35.25
More than five years	25.23	33.25

Risk Exposure :

i. Investment risk

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

ii. Market Risk (Interest Rate)

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Notes to the Financials Statement

for the year ended March 31, 2023

iii. Longevity Risk

The impact of longevity risk will depend on whether the benefits are paid before retirement age or after. Typically for the benefits paid on or before the retirement age, the longevity risk is not very material.

iv. Actuarial Risk

a. Salary Increase Assumption

Actual Salary increases that are higher than the assumed salary escalation, will result in increase to the Obligation at a rate that is higher than expected.

b. Attrition/Withdrawal Assumption

If actual withdrawal rates are higher than assumed withdrawal rates, the benefits will be paid earlier than expected. Similarly if the actual withdrawal rates are lower than assumed, the benefits will be paid later than expected. The impact of this will depend on the demography of the company and the financials assumptions.

v. Regulatory Risk

Any Changes to the current Regulations by the Government, will increase (in most cases) or Decrease the obligation which is not anticipated. Sometimes, the increase is many fold which will impact the financials quite significantly.

Note 29: Consolidation of Trust

The company has formed 'Infibeam Employee Welfare Trust' (IEW trust) for implementation of the schemes that are notified or may be notified from time to time by the Company under the plan, providing share based payment to its employees. IEW trust purchases Company's shares out of funds provided by the Company. The Company treats IEW as its extension and accordingly shares held by IEW are treated as treasury shares.

The Consolidation of the IEW trust financials statements with that of the Company does not in any manner affect the independence of the trustees where the rights and obligations are regulated by the trust deed.

Own equity instruments (treasury shares) are deducted from equity.

(b) Dividend Income

The dividend income of the Trust is debited to the Group's retained earning amounting to Nil as at March 31, 2023 (previous year: ₹ 0.56 million) (shown as deduction from dividend paid).

(c) Other Non Current Financial Assets and other income

Loan advanced to the Trust is eliminated on consolidation amounting to ₹ 420.05 million as at March 31, 2023 (previous year: ₹ 403.09 million) forming a part of current loans.

(d) Interest Expenses

Due to significant difference in the purchase price of the shares acquired and prevailing market price of the share, the Group foresees inability of the IEW Trust to service its loan obligations and interest payment temporarily. Accordingly the Group has reduced the interest on loan to zero.

Note 30: Segment reporting

Based on the "management approach" as defined in Ind AS-108 - "Operating Segments" and evaluation by the Chief Operating Decision Maker, the Company operates in two business segments:

- (1) Payment Business includes Payment Gateway business with CC Avenue business brand and payment infrastructure including CPGS towards banks, and Credit & Lending related business and
- (2) E-Commerce Platform Business includes Software Framework & Infrastructure to enable E-Commerce for large enterprises and related services including domains & advertising.

Segment assets and liabilities:

Segment information is prepared in conformity with the accounting policies adopted for preparing and presenting the standalone financial statements of the Company as a whole. Segment assets include all operating assets used by a segment and principally consists of operating cash, trade receivables, other assets and fixed assets, net of allowances and provisions which are reported as direct offsets in the balance sheet. While most such assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two segments is allocated to the segments on a reasonable basis. Segment liabilities include all operating liabilities and consist principally of trade payables, other liabilities and accrued liabilities. Segment assets and liabilities do not include those relating to income taxes.

Segment Expense:

Segment expense comprises the expense resulting from the operating activities of a segment that is directly attributable to the segment or that can be allocated on a reasonable basis to the segment and expense relating to transactions with other segments. Certain expenses are not specifically allocable to individual segments as the underlying services are used interchangeably. The Company therefore believes that it is not practicable to provide segment disclosures relating to such expenses, and accordingly such expenses are separately disclosed as 'unallocated' and directly charged against total income.

Certain assets and liabilities which are common to both the segments for which basis of allocation cannot be consistently identified are included under un-allocable assets and liabilities

The management assessed that cash and cash equivalents, other bank balances, loans, trade receivables, trade payables, other current financial assets and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

* The management assessed that carrying value approximates to the fair value

Notes to the Financials Statement

for the year ended March 31, 2023

Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Level 1 - Valuation technique and significant observable inputs for assets and liabilities

Investments represents investment in quoted equity instruments. The fair value of investment is derived based on the closing market rate as per stock exchange.

Reconciliation of Level 1 fair values

The following table shows a reconciliation from the opening balances to the closing balances for Level 1 fair values.

(₹ in Million)

Paticulars	FY 2022-23	FY 2021-22
Opening Balance on April 1,	436.62	335.82
Net change in fair value (unrealised)	(4.18)	100.81
Purchases	1,128.54	341.00
Sales	(950.01)	(341.00)
Closing Balance on March 31,	610.97	436.62

Level 2 - Valuation technique and significant observable inputs for assets and liabilities

Long term borrowings represents loan taken from bank. The fair value of borrowing is derived based on market observable interest rate.

The fair values of the unquoted non current investment have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows and discount rate. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted investments.

B. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company manages market risk through a treasury operations, which evaluates and exercises independent control over the entire process of market risk management. The Finance team recommends risk management objectives and policies. The activities of this operations include management of cash resources, borrowing strategies, and ensuring compliance with market risk limits and policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

Notes to the Financials Statement

for the year ended March 31, 2023

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities. The carrying amount of following financial assets represents the maximum credit exposure.

Financial Instruments and Cash Deposits

The credit risk from balances/deposits with Banks, current investments and other financial assets are managed in accordance with company's policy. Investment of surplus funds are primarily made in Liquid/Short Term Plan of Mutual Funds and in Bank Deposits which carry a high external rating.

Trade receivables

Trade receivables of the company are typically unsecured. Credit risk is managed through credit approvals and periodic monitoring of the creditworthiness of customers to which company grants credit terms in the normal course of business. The allowance for impairment of Trade receivables is created to the extent and as and when required, based upon the expected collectability of accounts receivables.

The maximum exposure to credit risk for trade receivables by geographic region was as follows:

(₹ in Million)		
Particulars	As at March 31, 2023	As at March 31, 2022
Domestic	238.97	303.65
Other regions	297.38	131.94
	536.34	435.58

The above receivables which are past due but not impaired are assessed on individual case to case basis and relate to a number of independent third party customers from whom there is no recent history of default. These financial assets were not impaired as there had not been a significant change in credit quality and the amounts were still considered recoverable based on the nature of the activity of the customer portfolio to which they belong and the type of customers. There are no other classes of financial assets that are past due but not impaired except for Trade receivables as at March 31, 2023 and March 31, 2022

iii. Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system.

The Company does not use any derivative instruments to hedge its risks associated with foreign currency fluctuations.

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, AED, SAR and OMR rates to the functional currency of the Company, with all other variables held constant. The Company's exposure to foreign currency changes for all other currencies is not material. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company manages its interest rate risk by having a balanced portfolio of fixed plus variable rate borrowings.

Note 34 : Capital management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to ensure that it maintains an efficient capital structure in order to support its business and maximise shareholder value.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings less cash and short-term deposits (including other bank balance).

INDEPENDENT AUDITOR'S REPORT

To the Members of **Infibeam Avenues Limited**

Report on the Audit of the Consolidated IND AS financial Statements

Opinion

We have audited the accompanying consolidated IND AS financial statements of Infibeam Avenues Limited (hereinafter referred to as "the Holding Company"), its subsidiaries, (the Holding Company and its subsidiaries together referred to as "the Group") which includes the share of profit of the Group in its associates, which comprise the consolidated Balance sheet as at March 31, 2023, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated IND AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated IND AS financial statements")

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and associates, the aforesaid consolidated IND AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in

conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standard) Rules, 2015, as amended (IND AS) and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates as at March 31, 2023, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated IND AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated IND AS Financial Statements section of our report. We are independent of the Group and its associates in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated IND AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated IND AS financial statements for the year ended March 31, 2023. These matters were addressed in the context of our audit of the consolidated IND AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr No	Key Audit Matter	Auditors Response
1.	Goodwill Impairment testing	Principal Audit Procedures
	<p>Included on the balance sheet of parent company is an intangible assets balance of Rs.19,483 million as on March 31, 2023 which relates to goodwill of Rs. 16,124.18 million which arose mainly from past acquisition and other intangible assets like Computer Software, IT Platform, Trademark and Customer relationship of Rs.3,028.45 million are classified as other Intangible assets.</p> <p>The group is required to perform impairment assessments of goodwill annually. For intangible assets with useful lives, the group is required to review these for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable, and at least annually, review whether there is any change in their expected useful lives.</p> <p>For the purpose of performing impairment assessments, all intangible assets including goodwill have been allocated to groups of cash generating units ("CGUs"). The recoverable amount of the underlying CGUs is supported by value-in-use calculations which are based on future discounted cash flows. Management concluded that the intangible assets including goodwill were not impaired as of March 31, 2023.</p> <p>The above assessment on annual impairment of goodwill is considered as significant accounting judgement and estimate to the consolidated IND AS financial statements and a key audit matter because the assumptions on which the tests are based are highly judgmental and are affected by future market and economic conditions which are inherently uncertain, and because of the materiality of the balances to the consolidated financial statements as a whole.</p> <p>Kindly refer Note No. 6 to the consolidated IND AS financial statements.</p>	<p>Focusing on group's business, we understood, evaluated and validated management's key controls over the impairment assessment process. The group had obtained a valuation report from external independent valuer. On observing the same, following audit procedures were adopted:</p> <ul style="list-style-type: none"> Evaluating the methodical and mathematical accuracy of the model used for the impairment testing, the appropriateness of the assumptions, and the methodology used to prepare its cash flow forecasts. gaining an understanding and assessing the reasonableness of business plans by comparing them to prior year's assumptions; comparing the current years actual results included in the model to consider whether forecasts including assumptions that, with hindsight, have been appropriate. discussing the potential changes in key drivers as compared to previous year / actual performance with management in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable. recalculating the value in use calculations challenging the robustness of the key assumptions used to determine the value in use, including the allocation of goodwill to the adequate CGUs, cash flow forecasts, long-term growth rates and the discount rates based on our understanding of the commercial prospects of the related CGUs and by comparing them with publicly available data, where possible; <p>We also considered the appropriateness of disclosures in the consolidated IND AS financial statements and conclude that our audit procedures did not lead to any reservations regarding the goodwill impairment test.</p>

Information Other than the Consolidated IND AS financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated IND AS financial statements and our auditor's report thereon.

Our opinion on the consolidated IND AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated IND AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated IND AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated IND AS financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (IND AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its associates and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated IND AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated IND AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated IND AS financial statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are also responsible for overseeing the financial reporting process of the respective entities.

Auditor's Responsibilities for the Audit of the Consolidated IND AS financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated IND AS financial statements as a whole are free from material misstatement, whether due to

fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated IND AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated IND AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated IND AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated IND AS financial statements, including the disclosures, and whether the consolidated IND AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates of which we are the independent auditors, to express an opinion on the consolidated IND AS financial statements. We

are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated IND AS financial statements of which we are the independent auditors. For the other entities included in the consolidated IND AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated IND AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated IND AS financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit, the financial statements of 14 subsidiaries whose financial statements reflects total assets of Rs. 4,965 million as at March 31, 2023, total revenue of Rs. 2,227.76 million and net cash flow of Rs. 17.84 million for the year ended on that date. The consolidated IND AS financial statements also include the Group's share of net comprehensive loss of Rs. 45.59 million for the year ended March 31, 2023, as considered in the consolidated IND AS financial statements, in respect of 3 associates. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us by the management. Our opinion on the consolidated IND AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and

associates, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates, is based solely on the reports of such other auditors. Our opinion is not modified in respect of this matter.

Certain of these subsidiaries and associates are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries and associates located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries and associates located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion on the consolidated IND AS financial statements, and our report on other legal and regulatory requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and associates, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

ANNEXURE "A"

TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Infibeam Avenues Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated IND AS financial statements of Infibeam Avenues Limited as of and for the year ended March 31, 2023, we have audited the internal financial controls over financial reporting of Infibeam Avenues Limited (hereinafter referred to as the "Holding Company") and its subsidiary companies and associates, which are companies incorporated in India, as of that date

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies and associates, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting with reference to these consolidated IND AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these consolidated IND AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these

consolidated IND AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these consolidated IND AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these consolidated IND AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting with Reference to these consolidated IND AS financial statements

A company's internal financial control over financial reporting with reference to these consolidated IND AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these consolidated IND AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with Reference to these consolidated IND AS financial statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated IND AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may

occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these consolidated IND AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these consolidated IND AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies and associates, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls over financial reporting with reference to these consolidated IND AS financial statements and such internal financial controls over financial reporting with reference to these consolidated IND AS financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated IND AS financial statements of the Holding Company, insofar as it relates to these 9 subsidiary companies and 2 associates, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiary and associates. Our opinion is not modified in respect of the above matters.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

1. Corporate Information

Infibeam Avenues Limited (Formerly known as Infibeam Incorporation Limited) ("the Company") was incorporated on 30 June 2010 under the Companies Act, 1956. The Group [along with its subsidiaries and associate, collectively referred to as (the "Group")] is primarily engaged in business software of development services, maintenance, web development, payment gateway services, e-commerce and other ancillary services.

The Company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company's shares are listed on the BSE Limited and National Stock Exchange of India Limited in India. The registered office of the Company is located at 28th Floor, GIFT Two Building, Block No. 56, Road-5C, Zone-5, GIFT CITY, Gandhinagar, Taluka & District - Gandhinagar – 382 355.

The consolidated financial statements were authorised for issue in accordance with a resolution of the directors on May 25, 2023.

2. Statement of compliance

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules as amended from time to time.

2.1 Basis of preparation of consolidated financial statements

These consolidated financial statements have been prepared on historical cost basis except for certain financial instruments and defined benefit plans which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Group's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Group has considered an operating cycle of 12 months.

The statement of cash flows has been prepared under indirect method, whereby profit or loss is adjusted for

the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

The financial statements are presented in Indian Rupee ('INR') which is also the Group's functional currency and all values are rounded to the nearest millions, except when otherwise indicated.

2.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company, its subsidiaries and associate as at March 31, 2023.

Subsidiaries: Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Equity accounted investees: The Group's interests in equity accounted investees comprise interests in associate. An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies. Interests in associate are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and OCI of equity accounted investees until the date on which significant influence ceases.

Assets, liabilities, income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of each of the subsidiaries

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

and associate used for the purpose of consolidation are drawn up to same reporting date as that of the Company, i.e., year ended on 31 March.

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating

to transactions between entities of the group. Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest and other components of equity. Any interest retained in the form of subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in the statement of profit and loss.

The consolidated financial statements comprise the financial statements of the Company, and its subsidiaries and associate as disclosed below.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

Business combinations (other than common control business combinations) on or after 1 April 2015

The Group accounts for its business combinations under acquisition method of accounting. Acquisition related costs are recognised in the consolidated statement of profit and loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date.

Purchase consideration paid in excess of the fair value of net assets acquired is recognised as goodwill. Any goodwill that arises is tested annually for impairment (see Note 4.10). Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognised as capital reserve. Any gain on a bargain purchase is recognised in OCI and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combination as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred, except to the extent related to the issue of debt or equity securities.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured subsequently and settlement is accounted for within equity. Other contingent consideration is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in profit or loss. If a business combination is achieved in stages, any previously held equity interest in the acquiree is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

The interest of non-controlling shareholders is initially measured either at fair value or at the non-controlling interests' proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity of subsidiaries.

Business combinations arising from transfers of interests in entities that are under common control are accounted at historical cost. The difference between any consideration given and the aggregate historical

carrying amounts of assets and liabilities of the acquired entity is recorded in shareholders' equity.

3. Critical accounting estimates

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

3.1 Estimate and assumption

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

3.2 Defined benefit plans

The cost of the defined benefit plans and the present value of the obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. Discount rate has been determined by reference to market yields on the government bonds as at the balance sheet date. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases are based on expected future inflation rates for the country.

Further details about defined benefit obligations are provided in Note 28.

3.3 Share-based payments

The Group initially measures the cost of equity-settled transactions with employees using a black schol model to determine the fair value of the liability incurred. Estimating fair value for share-based payment transactions requires determination of the

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For equity-settled share-based payment transactions, the liability needs to be measured at the time of grant.

The Group has also approved the grant of Employee Stock Appreciation Rights (SARs) to the eligible employees of the Group. Each SAR shall confer the right to the eligible employee to receive appreciation (cash settled / equity settled) with respect to the underlying Equity Share on the entitled shares after it has been exercised in accordance with terms of the Scheme.

The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 32.

3.4 Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

3.5 Intangible asset including intangible asset under development

Intangible development costs are capitalised as and when technical and commercial feasibility of the asset is demonstrated, future economic benefits are probable. The costs which can be capitalized include the salary and ESOP cost of employees that are directly attributable to development of the asset for its intended use. Research and maintenance costs are expensed as incurred. Intangible assets are tested for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Refer Note 4.6 for the estimated useful life of Intangible assets. The carrying value of Intangible assets has been disclosed in Note 6.

3.6 Property, plant and equipment

Refer Note 4.5 for the estimated useful life of Property, plant and equipment. The carrying value of Property, plant and equipment has been disclosed in Note 5.

3.7 Revenue recognition

Revenue is recognised upon transfer of control of promised services to customers in an amount that

reflects the consideration which the Group expects to receive in exchange for those services.

3.8 Investments

Investment in associate is carried at cost in the consolidated financial statements.

4. Summary of Significant accounting policies

The following are the significant accounting policies applied by the Group in preparing Consolidated financial statement:

4.1 Current versus non-current classification

The Group presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

4.2 Business combinations and goodwill

Business combinations are accounted for using the acquisition method prescribed under accounting standard. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and any previous interest held, over the net identifiable assets acquired and liabilities assumed.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed off, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed

operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

4.3 Foreign currencies

The Group's financial statements are presented in Indian rupees. The functional currency of Parent and Indian Subsidiaries and Associates is the Indian Rupee. The functional currency of Overseas Subsidiaries and Associates is local currency of the respective countries in which they are incorporated.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group at the functional currency spot rate at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or statement of profit or loss are also recognised in OCI or profit or loss, respectively).

The translations of financial statements of the foreign subsidiaries to the presentation currency is performed for assets and liabilities using exchange rate in the effect at the balance sheet and for revenue, expense

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

and cash-flow items using average exchange rate for respective periods. The gains or losses resulting from such translations are included in currency translation reserve under other component of equity. When a subsidiary is disposed of, in full, the relevant amount is transferred to net profit in the Statement of Profit and Loss. However, when a change in the parent's ownership does not result in loss of control of a subsidiary, such changes are recorded through equity.

4.4 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability
- Or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, as described below, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Significant accounting judgements, estimates and assumptions
- Quantitative disclosures of fair value measurement hierarchy
- Financial instruments (including those carried at amortised cost)

4.5 Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of Property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly. All repair and maintenance costs are recognised in statement of profit or loss as incurred.

Capital work-in-progress comprises cost of fixed assets that are not yet installed and ready for their intended use at the balance sheet date.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

Depreciation

Depreciation is calculated on written down value based on useful lives as prescribed under Part C of Schedule II to the Companies Act 2013, which represents the estimated useful lives of the assets. Assets individually costing less than Rs. 5,000 are fully written off in the year of acquisition. Depreciation is calculated on a written down value basis over the estimated useful lives of the assets as follows:

- Building – 60 years
- Leasehold Improvements - 10 years
- Plant and equipment - 5 to 10 years
- Furniture & Fixtures - 10 years
- Vehicles - 8 years
- Computer & Peripherals - 3 to 6 years

The Group, depreciates certain items of building, plant and equipment over useful lives as prescribed under Part C of Schedule II to the Companies Act 2013, which represents the estimated useful lives of the assets. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

4.6 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Cost include acquisition and other incidental cost related to acquiring the intangible asset.

Research costs are expensed as incurred. Intangible development costs are capitalised as and when technical and commercial feasibility of the asset is demonstrated, future economic benefits are probable. The costs which can be capitalized include the salary and ESOP cost of employees that are directly attributable to development of the asset for its intended use.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Amortisation

Period of Amortisation of Intangibles is calculated as follows:

- Computer software acquired on Amalgamation – 6 years
- Computer software acquired – 10 years (w.e.f. April 01, 2020)
- Trademark acquired on Amalgamation - 25 years (w.e.f. April 01, 2020)
- IT Platform acquired on Amalgamation - 5 years (w.e.f. April 01, 2020)
- Customer Relationship acquired on Amalgamation - 25 years (w.e.f. April 01, 2020)
- Internally generated Computer Software - 5 years (w.e.f. April 01, 2020)

Intangible assets under development

Expenditure incurred on acquisition /construction of intangible assets which are not ready for their intended use at balance sheet date are disclosed under Intangible assets under development. During the period of development, the asset is tested for impairment annually.

4.7 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group's lease asset classes comprise of lease for building and for vehicles. To assess whether a contract conveys the right to control the use of an identified

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Group has the right to direct the use of the asset. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets as below:

i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the underlying assets (i.e. 30 and 60 years) and for lease of vehicles Right of- use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the underlying assets (i.e. 8 years). If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating

the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The Group's lease liabilities are included in other current and non-current financial liabilities.

(iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term. "Lease liability" and "Right of Use" asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease.

4.8 Government Grants

Government grants are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

Government grants relating to expense item is recognised as income on a systematic basis over the period that the related costs, for which it is intended to compensate, are expensed.

Government grants related to assets (i.e. those whose primary condition is that an entity qualifying for them should purchase, construct or otherwise acquire long-term assets), including non-monetary grants at fair value, are presented in the balance sheet by deducting the grant in arriving at the carrying amount of the asset, in which case the grant is recognised in profit or loss as a reduction of depreciation expense.

4.9 Non-current assets held for sale and discontinued operations

Non-current assets and Disposal Group are classified as held for sale if their carrying amount is intended to be recovered principally through sale rather than through continuing use. The condition for classification of held for sale is met when the non-current asset or the Disposal Group is available for immediate sale and the same is highly probable of being completed within one year from the date of classification as held for sale. Non-current assets and Disposal Group held for sale are measured at the lower of carrying amount and fair value less cost to sell. Non-current assets and Disposal Group that ceases to be classified as held for sale shall be measured at the lower of carrying amount before the non-current asset and Disposal Group was classified as held for sale adjusted for any depreciation/amortization and its recoverable amount at the date when the Disposal Group no longer meets the "Held for sale" criteria.

A discontinued operation is a component of the undertaking and entity that has been disposed off or is classified as held for sale and

- represents a separate line of business or graphical area of operations and;
- is a part of a single coordinated plan to dispose off such a line of business or area of operations.

The results of discontinued operations are presented separately in the Consolidated Statement of Profit and Loss.

4.10 Impairment of non-financial assets

Non-financial assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual

asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generated unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets with indefinite useful lives are tested for impairment annually at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

4.11 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

4.12 Revenue Recognition

Rendering of services

Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those services.

Revenue from payment gateway services is recognised on settlement of transactions measured by value of transactions processed as per the rates and terms agreed between parties.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

Revenue from Web Services is recognised upfront at the point in time when the service is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises, these service is recognised proportionally over the period.

Registry Services revenues primarily arise from fixed fees charged to registrars for the initial registration or renewal of .ooo domain names. Revenues from the initial registration or renewal of domain names are deferred and recognized rateably over the registration term, generally one year and up to ten years. Fees for renewals and advance extensions to the existing term are deferred until the new incremental period commences. These fees are then recognized rateably over the renewal term.

Revenue is measured based on the consideration specified in a contract with the customer and excludes amounts collected on behalf of customers. The Group presents revenue net of discounts and collection charges. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Excess billing over revenue ("contract liability") is recognised when there is billing in excess of revenues.

In accordance with Ind AS 37, the Group recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Group reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Group disaggregates revenue from contracts with customers by offering and geography.

The Group exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Group considers indicators such as how customer consumes benefits as services are rendered or who controls the

asset as it is being created or existence of enforceable right to payment for performance to date as per contract.

Interest income

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit or loss.

Rental income

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in other income in the statement of profit or loss due to its nature.

Export incentives

Export incentives are accounted on accrual basis based on services rendered.

4.13 Financial instruments – initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial assets

(i) Initial recognition and measurement.

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial assets.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

- Debt instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)
- Equity instruments measured at fair value through statement of profit and loss (FVTPL)
- **Debt instruments at amortised cost:**

A debt instrument is measured at amortised cost if both the following conditions are met:

- the asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

- **Debt instruments at fair value through other comprehensive income (FVTOCI)**

A debt instrument is measured at fair value through other comprehensive income if both of the following criteria are met:

- the objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

- the asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, interest income, impairment losses & reversals and foreign exchange gain or loss are recognised in the statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

- **Debt instruments at fair value through profit or loss (FVTPL)**

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or fair value through other comprehensive income criteria, as at fair value through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of profit and loss.

- **Equity instruments:**

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

- **Investment in associates:**

Investment in associates is carried at cost in the consolidated financial statements.

(iii) De-recognition of financial assets

A financial asset (or where applicable a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the consolidated balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

(iv) Impairment of financial assets

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

b) Financial Liabilities

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

(ii) Subsequent measurement of financial liabilities

The measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Group has not designated any financial liability as at fair value through profit and loss.

- **Loans and Borrowings**

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance

costs in the statement of profit and loss.

This category generally applies to borrowings.

(iii) De-recognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

c) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.14 Cash and cash equivalent

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

4.15 Treasury shares

The Group has created an Employee Benefit Trust (EBT) for providing share-based payment to its employees. The Group uses EBT as a vehicle for distributing shares to employees under the employee remuneration schemes. The EBT buys shares of the company from the market, for giving appreciation (cash settled / equity settled) to employees. The Group treats EBT as its extension and shares held by EBT are treated as treasury shares.

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

the purchase, sale, issue or cancellation of the Group's own equity instruments.

4.16 Taxes

Tax expense comprises of current income tax and deferred tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside Statement of profit and loss is recognised outside Statement of profit and loss (either in other comprehensive income or equity). Current tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry

forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associate and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside Statement of profit and loss is recognised outside Statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The Group does not recognize tax credits in the nature of MAT credit as an asset since there is no convincing evidence that the Group will pay normal income tax during the specified period, i.e., the period for which tax credit is allowed to be carried forward. In the future year in which the Group recognizes tax credits as an asset, the said asset will be created by way of tax credit to the Statement of profit and loss.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

4.17 Retirement and other employee benefits

a) Short Term Employee Benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the year.

b) Post-Employment Benefits

(i) Defined benefit plan

Gratuity benefit scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet reduced by the fair value of any plan assets. The discount rate used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on

curtailments and non-routine settlements; and

- Net interest expense or income

The Group has not invested in any fund for meeting liability.

4.18 Share-based payments

Employees of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made in accordance with SEBI regulation and Ind As 102: Share based payment.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense. No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

Employee Stock Appreciation Rights (SAR)

The Group has formed 'Infibeam Employee Welfare Trust' (IEW trust) for implementation of the schemes that are notified or may be notified from time to time by the Group under the plan, providing share based payment to its employees. IEW trust purchases holding Company's shares out of funds provided by the Group. Accordingly, the Group has approved the grant of Employee Stock Appreciation Rights (SARs) to the eligible employees of the Group. Each SAR shall confer the right to the eligible employee to receive appreciation (cash settled / equity settled) with respect to the underlying Equity Share on the entitled shares after it has been exercised in accordance with terms of the Scheme.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

The Group follows the fair value method to account for its Employee Stock Appreciation Rights (SARs) using an appropriate valuation model. Compensation cost is measured by the excess, if any, of the market price of the underlying stock over the exercise price as determined under the option plan. The market price is the closing price on the stock exchange where there is highest trading volume on the working day immediately preceding the date of grant. Compensation cost, if any, is amortised over the vesting period.

4.19 Earnings per share

Basic EPS amounts are calculated by dividing the profit or loss for the year attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit or loss attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

4.20 Segment reporting

Based on "Management Approach" as defined in Ind AS 108 -Operating Segments, the Chief Operating Decision Maker evaluates the Group's performance and allocates the resources based on an analysis of various performance indicators by business segments. Un allocable items includes general corporate income and expense items which are not allocated to any business segment.

Segment policies:

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Group as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

4.21 Dividend distribution

The Group recognises a liability to make cash distributions to equity holders of the Group when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the

Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

4.22 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingencies

Provision in respect of contingencies relating to claims, litigation, assessment, fines, penalties etc. are recognised when it is probable that a liability has been incurred and the amount can be estimated reliably.

Contingent liabilities and contingent assets:

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor disclosed in the consolidated financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

4.23 Standards issued but not yet effective

Ministry of Corporate Affairs (MCA) notified Companies (Indian Accounting Standards) Amendment Rules, 2023 vide Notification dated 31 March 2023. Following amendments and annual improvements to Ind AS are applicable from 1 April 2023.

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.

Ind AS 12 - Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

The Group does not expect the above amendments / improvements to have any significant impact on its consolidated financial statements.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

Notes to the Consolidated Financial Statements

Risk Exposure :

i. Investment risk

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

ii. Market Risk (Interest Rate)

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

iii. Longevity Risk

The impact of longevity risk will depend on whether the benefits are paid before retirement age or after. Typically for the benefits paid on or before the retirement age, the longevity risk is not very material.

iv. Actuarial Risk

a. Salary Increase Assumption

Actual Salary increases that are higher than the assumed salary escalation, will result in increase to the Obligation at a rate that is higher than expected.

b. Attrition/Withdrawal Assumption

If actual withdrawal rates are higher than assumed withdrawal rates, the benefits will be paid earlier than expected. Similarly if the actual withdrawal rates are lower than assumed, the benefits will be paid later than expected. The impact of this will depend on the demography of the company and the financials assumptions.

v. Regulatory Risk

Any Changes to the current Regulations by the Government, will increase (in most cases) or Decrease the obligation which is not anticipated. Sometimes, the increase is many fold which will impact the financials quite significantly.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

Segment assets and liabilities:

Segment information is prepared in conformity with the accounting policies adopted for preparing and presenting the standalone financial statements of the Group as a whole. Segment assets include all operating assets used by a segment and principally consists of operating cash, trade receivables, other assets and fixed assets, net of allowances and provisions which are reported as direct offsets in the balance sheet. While most such assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two segments is allocated to the segments on a reasonable basis. Segment liabilities include all operating liabilities and consist principally of trade payables, other liabilities and accrued liabilities. Segment assets and liabilities do not include those relating to income taxes.

Segment Expense:

Segment expense comprises the expense resulting from the operating activities of a segment that is directly attributable to the segment or that can be allocated on a reasonable basis to the segment and expense relating to transactions with other segments. Certain expenses are not specifically allocable to individual segments as the underlying services are used interchangeably. The Group therefore believes that it is not practicable to provide segment disclosures relating to such expenses, and accordingly such expenses are separately disclosed as 'unallocated' and directly charged against total income.

Certain assets and liabilities which are common to both the segments for which basis of allocation cannot be consistently identified are included under un-allocable assets and liabilities

The group assessed that cash and cash equivalents, other bank balances, loans, trade receivables, trade payables, other current financial assets and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

* The group assessed that carrying value approximates to the fair value

Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Level 1 - Valuation technique and significant observable inputs for assets and liabilities

Non Current Investment represents investment in quoted equity instruments. The fair value of investment is derived based on the closing market rate as per stock exchange.

Reconciliation of Level 1 fair values

The following table shows a reconciliation from the opening balances to the closing balances for Level 1 fair values.

(₹ in Million)

Particulars	2022-23	2021-22

Closing Balance on March 31	813.69	517.31

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

Level 2 - Valuation technique and significant observable inputs for assets and liabilities

Long term borrowings represents loan taken from bank. The fair value of borrowing is derived based on market observable interest rate.

The fair values of the unquoted non current investment have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows and discount rate. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted preference investments.

B. Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

i. Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group manages market risk through a treasury operations, which evaluates and exercises independent control over the entire process of market risk management. The treasury team recommends risk management objectives and policies. The activities of this operations include management of cash resources, borrowing strategies, and ensuring compliance with market risk limits and policies.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group.

ii. Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investments in debt securities. The carrying amount of following financial assets represents the maximum credit exposure.

Financial Instruments and Cash Deposits

The Group maintains its Cash and cash equivalents and Bank deposits with banks having good reputation, good past track record and high quality credit rating and also reviews their credit-worthiness on an on-going basis.

Trade receivables

Trade receivables of the Group are typically unsecured. Credit risk is managed through periodic monitoring of the creditworthiness of customers to which Group grants credit terms in the normal course of business. The allowance for impairment of Trade receivables is created to the extent and as and when required, based upon the expected collectability of accounts receivables.

Notes to the Consolidated Financial Statements

for the year ended 31st March, 2023

At March 31, 2023, the maximum exposure to credit risk for trade receivables by geographic region was as follows:

(₹ in Million)

Particulars	Carrying amount	
	As at March 31, 2023	As at March 31, 2021
Domestic	455.05	536.67
Other regions	195.27	272.49
	650.32	809.15

The above receivables which are past due but not impaired are assessed on individual case to case basis and relate to a number of independent third party customers from whom there is no recent history of default. These financial assets were not impaired as there had not been a significant change in credit quality and the amounts were still considered recoverable based on the nature of the activity of the customer portfolio to which they belong and the type of customers. There are no other classes of financial assets that are past due but not impaired except for Trade receivables as at March 31, 2023 and March 31, 2022

iii. Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Financial instruments affected by market risk include loans and borrowings, deposits.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group transacts business in local currency and in foreign currency USD, AED, SAR, OMR. The Group has foreign currency trade payables and receivables and is, therefore, exposed to foreign exchange risk. The Group does not use any derivative instruments to hedge its risks associated with foreign currency fluctuations.

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, AED, SAR, OMR rates to the functional currency of respective entity, with all other variables held constant. The Group's exposure to foreign currency changes for all other currencies is not material. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed plus variable rate borrowings.

Note 36 : Capital management

For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, interest bearing loans and borrowings less cash and short-term deposits (including other bank balance).

(₹ in Million)

Particulars	Year ended March 31, 2023	Year ended March 31, 2022
Interest-bearing loans and borrowings (Note 13)	-	-
Less: cash and cash equivalent and other bank balance (Note 7)	(2,700.16)	(2,088.00)
Net debt	(2,700.16)	(2,088.00)
Equity share capital (Note 10)	2,677.78	2,676.31
Other equity (Note 12)	28,977.11	26,902.74
Total capital	31,654.90	29,579.05
Capital and net debt	28,954.74	27,491.05

Gearing ratio

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2023 and March 31, 2022

Note 39: Consolidation of Trust

The group has formed 'Infibeam Employee Welfare Trust' (IEW trust) for implementation of the schemes that are notified or may be notified from time to time by the Group under the plan, providing share based payment to its employees. IEW trust purchases Parent Company's shares out of funds provided by the Group. The Group treats IEW as its extension and accordingly shares held by IEW are treated as treasury shares.

The Consolidation of the IEW trust financials statements with that of the Group does not in any manner affect the independence of the trustees where the rights and obligations are regulated by the trust deed.

Own equity instruments (treasury shares) are deducted from equity.

(i) The sources and application of funds of the IEW Trust consolidated as at March 31, 2023 were as follows:
